## **FINANCIAL REPORT FOR THE YEAR ENDED 30 JUNE 2009**

# HAMPTON HILL MINING NL

## DIRECTORS' REPORT

Hampton Hill Mining NL ("the Company" or "Hampton") is listed on the Australian Securities Exchange. The registered office and principle place of business of the Company is located at Level 2, 9 Havelock Street, West Perth, Western Australia.

The directors of the Company present their report on the Company and the consolidated entity for the year ended 30 June 2009.

### DIRECTORS

The names of the directors of the Company during the whole of the financial year and up to the date of this report are:

Neil Tomkinson  
Wilson Forte  
Joshua Pitt

### PRINCIPAL ACTIVITIES

The principal activities of the Company and its subsidiary (the "Group" or "Consolidated entity") during the financial year consisted of gold and base metal exploration, including iron ore. There has been no significant change in these activities during the year.

### DIVIDENDS

No dividends were paid during the year and the directors do not recommend the payment of a dividend.

### REVIEW OF OPERATIONS AND LIKELY DEVELOPMENTS

The consolidated entity's operating loss after tax for the financial year was \$890,250 (2008: \$785,370), of which \$670,710 (2008: \$512,609) related to exploration expenditure written off.

Hampton has continued to actively explore its gold, base metal and iron projects during the year.

#### **Weld Range Iron Ore Project**

Hampton's main exploration asset is its 40% interest in the Hampton Hill Mining Joint Venture (HHMJV). Sinosteel Midwest Corporation (SinoMidwest), which is the manager of the HHMJV, is a subsidiary of the major Chinese steel manufacturer, Sinosteel Corporation. The HHMJV forms part of the Sinosteel Weld Range Direct Shipping Ore Project (WRDSOP). This project forms an integral part of the Murchison Iron Ore Development Plan which is aiming to establish an iron ore mining industry shipping ore for export through the proposed new port of Oakajee, just north of Geraldton which has received expressions of financial support from both the Commonwealth and Western Australian State governments

Progress in drilling the HHMJV tenements has been of a preliminary nature, somewhat delayed by environmental and Aboriginal Heritage issues. In addition, SinoMidwest has been concentrating on infill drilling iron resources on its 100% owned tenements in support of a proposed bankable feasibility study which is planned to be completed by the end of 2009. The rate of drilling on the HHMJV tenements is set to increase rapidly in the current year with 120 holes planned in the initial program.

As a requirement of the HHMJV Agreement, Sinosteel has to complete a prefeasibility study on the HHMJV tenements no later than February 2011. This procedure is designed to allow Hampton and SinoMidwest to seek an agreed market value for Hampton's 40% share of the HHMJV which Hampton is obligated to offer to SinoMidwest unless Hampton elects to convert its interest to a 2% FOB royalty.

#### **Other Projects**

Drill programs were completed on three projects. Drilling on the Wheatley base metal and Ryansville iron projects was fully funded by Hampton. At the Capricorn joint venture, Hampton contributed 75% of costs for a drill program that tested several aeromagnetic anomalies for iron ore. At the Ryansville gold project, an electromagnetic geophysical survey commissioned by Hampton found buried conductors which may be associated with Hill 50 style gold mineralisation. At the Yillaree project, a review of previous exploration conducted by the project managers, Breakaway Resources Ltd, delineated targets for nickel sulphides and gold mineralisation but no drilling was carried out. Further drilling programs are anticipated on most of these projects in the coming year.

**AUDITED REMUNERATION REPORT**

**(a) Principles used to determine the nature and amount of remuneration**

The objective of the Company's remuneration policy for executive directors and other key management personnel is to ensure that

- remuneration packages properly reflect the duties and responsibilities of the person concerned, and
- remuneration is competitive in attracting, retaining and motivating people of the highest quality.

The remuneration framework has regard to shareholders' interests by

- focusing on sustained growth in share price, as well as focusing the executive on key non-financial drivers of value, and
- attracting and retaining high calibre executives.

The remuneration framework has regard to executives' interests by

- rewarding capability and experience,
- providing a clear structure for earning rewards,
- providing recognition for contribution.

The remuneration policy is not linked to the Company's performance.

Remuneration is reviewed by the board on an annual basis having regard to performance and market competitiveness.

The remuneration of executive personnel is determined by the non-executive directors and comprises a base salary or fee and, by way of an incentive, the opportunity to take up partly paid shares in the Company and thereby participate in the future success of the Company.

All remuneration paid to key management personnel is valued at the cost to the Company and expensed.

**Non-Executive Directors**

The Company's non-executive directors have elected not to receive any fees or remuneration from the Company. Non-executive directors may be paid all travelling and other expenses properly incurred by them in the business of the Company.

**Executive Director and other Executives**

Executive remuneration packages include set salary or fee amounts and long term incentives through grants of partly paid shares or share options.

Executives' remuneration is reviewed annually with regard to competitiveness and performance.

There are no guaranteed salary increases fixed in any senior executives' contracts.

**DIRECTORS' REPORT (Continued)**

**AUDITED REMUNERATION REPORT (Continued)**

Remuneration for the Managing Director is by way of a salary inclusive of statutory superannuation payments, the use of a company 4-wheel drive vehicle primarily for accessing the Company's exploration properties, and from time to time the issue of partly paid shares or options to take up fully paid shares in the Company. The non-executive directors review terms on an annual basis. The nature and amount of remuneration paid to the Managing Director has been determined by reference to the services provided, experience, length of service and prevailing market rates.

Remuneration of the Company Secretary is by way of a retainer and fee for company secretarial, accounting and administration services provided to the Company, invoiced on an hourly basis, and from time to time the issue of partly paid shares, or options to take up fully paid shares in the Company. The directors' regularly review the services provided and the hourly rate charged.

**(b) Details of remuneration**

The key management personnel of the Company and the Group are the Directors.

The remuneration of key management personnel and other specified executives for the year is summarised below:

	Short term benefits		Post-employment benefits	Share based payments	Total	Value of partly paid shares as a proportion of remuneration
	Salary & fees	Non-cash benefits	Super-annuation	Partly paid shares

	<u>36,402</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>36,402</u>	<u>-</u>

No part of the remuneration of directors and other specified executives is contingent on the performance of the Company. The key management personnel of the Company are the same as the key management personnel of the Group.

**(c) Service agreements**

The salary and superannuation package for the Managing Director, Mr Wilson Forte, for the year ended 30 June 2009 was \$216,763 including non-cash benefits. There are no termination arrangements in respect of Mr Forte's employment other than the expectation that he would receive normal notice and compensation set down by law in the event of his services being terminated.

The fees and retainer payable by the Company to Sable Management Pty Ltd for Mr Ruttledge's services for the year ended 30 June 2009 exclusive of GST were \$48,125.

**DIRECTORS' REPORT (Continued)**

**AUDITED REMUNERATION REPORT (Continued)**

**(d) Share based compensation**

The Managing Director and other specified executives from time to time are entitled to be granted partly paid shares in the Company at the discretion of the board and, in the case of the Managing Director, subject to shareholder approval. The Managing Director does not participate in any board discussions regarding his remuneration.

Share based payments are generally provided in the form of partly paid shares vesting immediately. The issue of these partly paid shares is not linked to past company performance since their principal purpose is to promote continuity of performance and provide additional incentive to the key management personnel to increase shareholder wealth. There is no specific board policy restricting employees from taking action to limit their exposure to risk in relation to share based payments. Nevertheless, in terms of the Company's corporate governance policies, all employees are prohibited from dealing in the Company's securities when they possess inside information and they are obliged to inform the board of any proposed transactions in securities.

There were no options or partly paid shares granted to key management personnel and other specified executives during the year.

**(e) Additional information**

Share-based compensation: Partly paid ordinary shares.

No partly paid shares were issued during the year.

No partly paid shares were paid up during the year and no partly paid shares were forfeited during the year.

The audited remuneration report ends here.

**SHARES UNDER OPTION**

There are no options to take up ordinary shares in the Company at the date of this report.

**ENVIRONMENTAL REGULATIONS**

The mining leases, exploration licences and prospecting licences granted to the Company pursuant to the Mining Act (1978) (WA) are granted subject to various conditions which include standard environmental requirements. The Company adheres to these conditions and the Directors are not aware of any contraventions of these requirements. The Directors have considered compliance with the National Greenhouse and Energy Reporting Act 2007 which requires entities to report annual greenhouse gas emissions and energy use. For the first measurement period 1 July 2008 to 30 June 2009 the directors have assessed that there are no current reporting requirements, but may be required to do so in the future.

**INSURANCE OF OFFICERS**

During or since the end of the financial year the Company has not given an indemnity, nor has it entered into any agreement to indemnify, nor has it paid or agreed to pay insurance premiums to insure, any director or other officer of the Company against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of director of the Company.

**PROCEEDINGS ON BEHALF OF THE COMPANY**

No person has applied for leave of any court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for a purpose of taking responsibility on behalf of the Company for all or any part of those proceedings. The Company was not party to any such proceedings during the year.

**DIRECTORS' REPORT (Continued)**

**AUDIT COMMITTEE**

The Company is not of a size nor are its financial affairs of such complexity to justify a separate audit committee of the Board of Directors. All matters that might properly be dealt with by such a committee are the subject of scrutiny at full board meetings.

**AUDITOR'S INDEPENDENCE DECLARATION**

A copy of the auditor's independence declaration as required by Section 307C of the Corporations Act 2001 is included in this Annual Report.

**NON-AUDIT SERVICES**

BDO Kendalls Audit & Assurance (WA) Pty Ltd, the Company's auditor, did not perform any non-audit services for the Company for the year ended 30 June 2009.

Signed in Perth in accordance with a resolution of Directors on 11 September 2009.

##### *Compliance with IFRS*

Australian Accounting Standards include Australian equivalents to International Financial Accounting Standards (AIFRS). Compliance with AIFRS ensures that the financial statements and notes of Hampton Hill Mining NL comply with International Financial Reporting Standards (IFRS).

##### *Reporting Basis and Conventions*

These financial statements have been prepared on an accruals basis and are based on historical costs.

##### *Critical accounting estimates and judgements*

The directors evaluate estimates and judgements incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the group.

##### *(i) Key Estimates — Impairment*

The group assesses impairment at each reporting date by evaluating conditions specific to the group that may lead to impairment of exploration and evaluation assets, and plant and equipment. Where an impairment trigger exists, the recoverable amount of the asset is determined. Value-in-use calculations performed in assessing recoverable amounts incorporate a number of key estimates.

##### *(ii) Capitalisation of exploration and evaluation expenditure*

The group has capitalised exploration and evaluation expenditure of \$6,839,720 (2008: \$6,666,019) on the basis either that this is expected to be recouped through successful development (or alternatively sale) of the areas of interest concerned or that it is not yet possible to assess whether it would be recouped.

#### (b) Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of the subsidiary of Hampton Hill Mining NL ("Company" or "Parent Entity") as at 30 June 2009 and the results of its subsidiary for the year then ended. Hampton Hill Mining NL and its subsidiary together are referred to in this Financial Report as the Group or consolidated entity.

##### *Subsidiaries*

A subsidiary is an entity (including a special purpose entity) over which the Group has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

The purchase method of accounting is used to account for the acquisition of subsidiaries by the Group.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2009

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

Investments in subsidiaries are accounted for at cost in the individual financial statements of Hampton Hill Mining NL.

**(c) Segment reporting**

A business segment is identified for a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different to those of other business segments. A geographical segment is identified when products or services are provided within a particular economic environment subject to risks and returns that are different from those of segments operation in other economic environments.

**(d) Revenue recognition**

Revenue is measured at the fair value of the consideration received or receivable.

Interest income is brought to account as income over the term of each financial instrument using the effective interest rate basis.

Other revenue is recognised as it accrues.

**(e) Income tax**

The charge for current income tax expenses is based on the profit for the year adjusted for any non-assessable or disallowed items. It is calculated using tax rates that have been enacted or are substantively enacted by the balance sheet date.

Deferred tax is accounted for using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or liability is settled. Deferred tax is credited in the income statement except where it relates to items that may be credited directly to equity, in which case the deferred tax is adjusted directly against equity.

Deferred tax assets are recognised to the extent that it is probable that future tax profits will be available against which deductible temporary differences can be utilised.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

The amount of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income taxation legislation and the anticipation that the economic entity will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

*Tax consolidation legislation*

The Company and its wholly-owned Australian subsidiary, Apollo Mining Pty Ltd, have implemented the tax consolidation legislation.

The Company is the head entity in the tax controlled group and its subsidiary is the controlled entity and each accounts for its own current and deferred tax amounts. These tax amounts are measured as if each entity in the tax consolidated group continues to be a standalone taxpayer in its own right.

In addition to its own current and deferred tax amounts, the Company also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from the controlled entity in the tax consolidated group.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2009

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

**(f) Impairment of assets**

At each reporting date, the Group reviews the carrying values of its tangible and intangible assets to determine whether there is any objective evidence that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the income statement.

Impairment testing is performed annually for intangible assets with indefinite lives.

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

**(g) Cash and cash equivalents**

Cash includes deposits at call short term deposits and bills of exchange which are readily convertible to cash on hand and which are used in the cash management function on a day-to-day basis, net of outstanding bank overdrafts.

**(h) Trade receivables**

All trade receivables are recognised at the amounts receivable as they are due for settlement no more than 30 days from the date of recognition. Trade receivables are recognised initially at fair value and subsequently at amortised cost.

Collectability of trade receivables is reviewed on an ongoing basis. Debts, which are known to be uncollectable, are written off. An allowance for doubtful debts is raised where some doubt as to collection exists and is recorded in a separate account.

**(i) Other financial assets and liabilities**

*Recognition*

Financial instruments are initially measured at cost on trade date, which includes transaction costs, when the related contractual rights or obligations exist. Subsequent to initial recognition these instruments are measured as set out below.

*Financial liabilities*

Non-derivative financial liabilities are recognised initially at fair value and subsequently at amortised cost, comprising original debts less principal payments and amortisation.

*Impairment*

At each reporting date, the Group assesses whether there is objective evidence that a financial instrument has been impaired. Impairment losses are recognised in the income statement.

**(j) Exploration and evaluation expenditure**

Exploration and evaluation expenditure incurred is accumulated separately for each identifiable area of interest. Such expenditure comprises net direct costs, and an appropriate portion of related overhead expenditure, but does not include general overheads or administration expenditure not having a specific nexus with a particular area of interest.

Exploration and evaluation expenditure for each area of interest is carried forward where rights to the tenure of the area of interest are current and costs are expected to be recouped through revenue derived from the area of interest or sale of that area of interest, or exploration and evaluation activities have not reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves and active or significant operations in, or in relation to, the area of interest are continuing. Exploration and evaluation expenditure for an area of interest which does not satisfy the above policy is not carried forward as an asset and is written off to the income statement.

Accumulated costs in relation to an abandoned area are written off in full against profit in the year in which the decision to abandon the area is made.

When production commences, the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

**NOTES TO THE FINANCIAL STATEMENTS**

FOR THE YEAR ENDED 30 JUNE 2009

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**(k) Plant and equipment**

*Recognition and measurement*

Plant and equipment items are measured on the cost basis less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition on the items.

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

*Depreciation*

The depreciable amount of all fixed assets is depreciated on a straight line basis over their useful lives to the economic entity commencing from the time the asset is held ready for use.

The depreciation rates used for each class of depreciable assets are:

<i>Class of Fixed Asset</i>	<i>Depreciation Rate</i>
Plant and Equipment:	13% to 27% straight line.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the income statement.

**(l) Employee benefits**

*Wages and salaries, annual leave and sick leave*

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulating sick leave expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled.

*Long service leave*

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

*Retirement benefits obligations*

Contributions are made by the Company to employee superannuation funds and are charged as expenses when incurred.

*Share based payments*

Share-based compensation benefits are provided to directors and other personnel of the Company.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2009

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The fair value of partly paid shares granted to directors and other personnel is recognised as an employee benefit expense with a corresponding increase in contributed equity. The fair value is measured at grant date and recognised over the period during which the directors and/or other personnel become unconditionally entitled to the partly paid shares.

The fair value at grant date is independently determined using a call option pricing model that takes into account the price, the term, the vesting and performance criteria, the impact of dilution, the non-tradeable nature of the partly paid share, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk-free interest rate for the term.

#### (m) Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributed to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributed to the issue of new shares or options for the acquisition of a business are not included in the cost of the acquisition as part of the purchase consideration.

#### (n) Loss per share

*Basic loss per share*

Basic loss per share is determined by dividing the operating profit after income tax by the weighted average number of ordinary shares outstanding during the financial year.

*Diluted loss per share*

Diluted loss per share adjusts the figures used in the determination of basic loss per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

#### (o) Joint venture agreements

The Group's joint venture agreements do not constitute separate legal entities. They are contractual agreements between the participants for the sharing of costs and output and do not in themselves generate revenue and profit.

The joint venture agreements are of the type where initially one party contributes tenements with the other party earning a specified percentage by funding exploration activities; thereafter the parties often share exploration and development costs in proportion to their ownership of joint venture assets. The joint ventures do not hold any assets and accordingly the Company's share of exploration expenditure is accounted for in accordance with the policy set out in Note 1(j).

#### (p) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

Cash flows are presented in the cash flow statement on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## (q) New accounting standards and interpretation

The following Australian Accounting Standards have been issued and or amended and are applicable to the Group but are not yet effective. They have not been adopted in the preparation of the financial statements at reporting date. The Application Date of the standard is for the annual reporting periods beginning on or after the date shown in the table below.

Reference	Affected Standards	Nature of change to accounting policy and impact on accounts	Application date
AASB 8 AASB 2007-3	AASB 8 replaces AASB 114 Segment Reporting	As this is a disclosure standard, there will be no impact on amounts recognised in the financial statements. The amendments may have an impact on the Company's segment disclosures.	1 January 2009
AASB 101 (revised) AASB 2007-8 AASB 2007-10	Amendments to AASB 101 Presentation of Financial Statements	As this is a disclosure standard only, there will be no impact on amounts recognised in the financial statements. However, there will be various changes to the way financial statements are presented and various changes to names of individual financial statements.	1 January 2009
AASB 2008-1	Amendments to AASB 2 – Share Based Payments : Vesting Conditions and Cancellations	No impact because the Company has not issued any options to employees that include non-vesting conditions.	1 January 2009
AASB 2009-2	Amendments to Australian Accounting Standards – Improving Disclosure about Financial Instruments (AASB 4, 7, 1023 and 1038)	The main amendment to AASB 7 requires fair value measurements to be disclosed by source of inputs using a set hierarchy. This is not expected to be applicable to the Company. The amendments to the other listed AASB's are editorial only.	1 January 2009
AASB 2009-7	Amendments to Australian Accounting Standards (AASB 5, 7, 107, 112, 136, 139 and Interpretation 17)	These comprise editorial amendments and are expected to have no major impact on the requirements of the amended pronouncements.	1 July 2009
Amendments to International Financial Reporting Standards (IFRS)	Improvements to IFRSs	The Company has not yet determined the extent of the impact of the amendments, if any.	1 January 2009 except amendments to IFRS 5, which are effective from 1 July 2009
AASB 2008-5 AASB 2008-6 AASB 2009-4 AASB 2009-5	Amendments to Australian Accounting Standards arising from the Annual Improvements Project (AASB 5, 7, 101, 102, 107, 108, 110, 116, 118, 119, 120, 123, 127, 128, 129, 131, 132, 134, 136, 138, 139, 140, 141, 1023 and 1038)	Only the amendments to AASB 136 are applicable and there will be no financial impact when these amendments are first adopted because these amendments relate to additional disclosure requirements only.	1 January 2009 1 July 2009 1 July 2009 1 January 2010
AASB 127	Consolidated and Separate Financial Statements	If the Group changes its ownership interest in the existing subsidiary in the future the change will be accounted for as an equity transaction. This will have no impact on goodwill, nor will it give rise to a gain or a loss in the Group's income statement.	1 July 2009

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2009

### NOTE 2 – FINANCIAL RISK MANAGEMENT

The Group, in its normal course of business, is exposed to financial risks comprising market risk (essentially interest rate risk), credit risk and liquidity risk.

The directors have overall responsibility for the Group's management of these risks and seek to minimise these risks through ongoing monitoring and review of the adequacy of the risk management framework in relation to the risks encountered by the Group.

#### Market risk

The Group's market risk exposure is to Australian money market interest rates in respect of its cash assets. The risk is managed by monitoring the interest rate yield curve out to 120 days to ensure a balance is maintained between the liquidity of its cash assets and interest rate return.

Bank deposits at call, amounting to \$2,346,494 (2008: 2,805,857), all mature within 97 days of balance date.

The weighted average rate of interest to which the Group was exposed on its cash assets as at the year end was 3.58% (2008: 7.70%).

The table below summarises the sensitivity of the Group's cash assets to interest rate risk. The Group has no interest rate risk associated with any of its other financial assets or liabilities. Whilst this analysis reflects the effect of a 1% decline in interest rates recent Australian Treasury announcements and press reports would indicate a further downward movement in interest rates of this magnitude to be unlikely over the next 12 months.

Financial Assets	Carrying amount of cash assets	Effect of decrease or increase of interest rate on profit and equity of the Group			
		-1%		+ 1%	
Change of interest rate:		Profit	Equity	Profit	Equity
	\$	\$	\$	\$	\$
<b>2009</b>					
Cash & cash equivalents	2,387,068				
Total increase/(decrease)		(23,871)	(23,871)	23,871	23,871
<b>2008</b>					
Cash & cash equivalents	3,030,941				
Total increase/(decrease)		(30,309)	(30,309)	30,309	30,309

#### Liquidity risk

The Group has no significant exposure to liquidity risk as the Group's only debt is that associated with trade creditors in respect of which the Group's policy is to ensure payment within 30 days. The Group manages its liquidity by monitoring forecast cash flows.

#### Credit risk

The Group does not have any significant exposure to credit risk. The minimal exposure to credit risk that could arise is from having its cash assets all deposited at one bank. Whilst the risk of the bank failing is considered minimal, the Group manages this exposure by ensuring its funds are deposited only with a major bank with high security ratings.

Exposure to credit risk	Closing carrying amount of cash assets Consolidated		Closing carrying amount of cash assets Parent Entity	
	2009	2008	2009	2008
	\$	\$	\$	\$

Trade and other receivables	38,923	97,562	841,136	901,053

#### Fair value estimates

The carrying amount of the Group's financial assets and liabilities approximates fair value due to their short term maturity.

## NOTE 2 – FINANCIAL RISK MANAGEMENT (Continued)

**Capital management risk**

The Group's objective in managing capital which consists primarily of equity capital is to safeguard its ability to continue as a going concern, so that it can continue to explore for minerals with the ultimate objective of providing returns for shareholders whilst maintaining an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may issue new shares, sell assets, or joint venture its projects.

## NOTE 3 – SEGMENT INFORMATION

The Group operates predominantly in one industry. The principal activities are iron ore, other base metal and gold exploration and prospecting.

The Group currently operates only in Australia which is a single geographic segment.

#### Rights attaching to ordinary shares

The ordinary shares have no par value. Ordinary shares entitle the holder to participate in dividends and in the proceeds on winding up of the Company in proportion to the number of and amounts paid on the shares held. On a show of hands every holder of ordinary shares present at a meeting in person or by proxy is entitled to one vote and upon a poll each share is entitled to one vote. The ordinary fully paid shares are listed on the Australian Securities Exchange and carry no trade restrictions.

#### Rights attaching to partly paid ordinary shares

The partly paid ordinary shares are not transferable and may participate in pro-rata entitlements only to the extent of the capital paid up. They may be converted to fully paid shares at any time on payment of the amount unpaid upon which application will be made for listing of the shares on the Australian Securities Exchange. The resulting fully paid ordinary shares have the same rights as other ordinary shares. The shares are subject to calls on uncalled capital at the discretion of the Directors.

**NOTES TO THE FINANCIAL STATEMENTS**

FOR THE YEAR ENDED 30 JUNE 2009

**NOTE 19 – CAPITAL AND LEASE COMMITMENTS**

**(a) Mineral Tenements**

In order to maintain the mineral tenements in which the Company and other parties are involved, the Company is committed to fulfil the minimum annual expenditure conditions under which the tenements are granted. The minimum estimated expenditure in accordance with the requirements of the Western Australian Department of Industry and Resources for the next financial year are set out below.

	Consolidated		Parent Entity	
	2009	2008	2009	2008
	\$	\$	\$	\$
Minimum estimated expenditure requirements	<u>532,494</u>	<u>833,587</u>	<u>369,506</u>	<u>494,160</u>

These requirements are expected to be fulfilled in the normal course of operations and may be varied from time to time subject to approval by the grantor of titles. The estimated expenditure represents potential expenditure which may be avoided by relinquishment of tenure. Exploration expenditure commitments beyond twelve months cannot be reliably determined

**(b) Operating Leases**

Commitment for minimum lease payments in relation to a non-cancellable operating lease are payable as follows:

Within one year	100,643	95,850	100,643	95,850
Longer than one year, not longer than five years	<u>-</u>	<u>95,850</u>	<u>-</u>	<u>95,850</u>
	<u>100,643</u>	<u>191,700</u>	<u>100,643</u>	<u>191,700</u>

The above commitments relate to an operating lease in respect of the Company's premises.

**NOTE 20 – RELATED PARTY TRANSACTIONS**

**(a) Subsidiary**

The Company's interest in its wholly owned subsidiary is set out in note 11.

**(b) Key management personnel**

Disclosures relating to key management personnel are set out in note 16.

**(c) Other transactions with director-related entities**

The Company has a 75% contributing interest in a joint venture with Metallica Pty Ltd, a company of which Mr Tomkinson and Mr Pitt are directors and which is controlled by entities associated with Mr Pitt.

During the financial year the Company received \$5,174 (2008: \$2,196) from Red Hill Iron Limited, a listed company of which Mr Pitt and Mr Tomkinson are directors and shareholders, for administration services supplied by the Company on normal commercial terms and conditions determined on an arms length basis between the companies.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2009

### NOTE 21 – INTERESTS IN JOINT VENTURES

The consolidated entity has interests in the following mineral exploration joint ventures as at 30 June 2009:

Name of Project	Interest %	Activities	Other parties
Leinster (Yillaree)	18.73%	Nickel/Gold exploration	Breakaway Resources Limited
Capricorn	75%	Base metals	Metallica Pty Ltd
Wheatley	50%	Base metals	Teck Cominco Australia Pty Ltd
Weld Range - Iron Ore	100%	Iron Ore	Sinosteel/Midwest Corporation Ltd (earning 60%)
Weld Range - Non Ferrous	0%	Earning interest in base metals gold and PGMs	Sinosteel/Midwest Corporation Ltd 100% (Hampton can earn up to 100%)

The Group's joint ventures do not constitute separate legal entities but are contractual agreements between the participants for the sharing of costs and output and do not in themselves generate revenue and profit. Refer note 1(p).

### NOTE 22 – EVENTS OCCURRING AFTER BALANCE SHEET DATE

To the best of the Directors' knowledge and belief there have been no material items, transactions or events subsequent to 30 June 2009 which, although they do not relate to conditions existing at that date, have not been dealt with in this report and which would cause reliance on the information shown in this report to be misleading.

## NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2009

### NOTE 24 – EARNINGS PER SHARE

	<b>2009 Cents</b>	<b>2008 Cents</b>
Basic and diluted loss per share	<u>0.68</u>	<u>0.67</u>
<b>Reconciliation of loss</b>	<b>\$</b>	<b>\$</b>
The loss used in calculating the basic and diluted loss is equal to the loss attributed to ordinary equity holders of the Company in the Income Statement	<u>890,250</u>	<u>785,370</u>
	<b>No. of Shares</b>	<b>No. of Shares</b>
Weighted average number of ordinary shares outstanding during the year used in the calculation of basic and diluted earnings per share	<u>130,173,675</u>	<u>118,353,425</u>

The weighted average number of ordinary shares used in calculating basic and diluted loss per share is derived from the fully paid and partly paid ordinary shares on issue.

The diluted loss per share is the same as the basic loss per share on account of the Company's potential ordinary shares (in the form of partly paid shares to the extent that they are not entitled to participate in dividends) not being dilutive because their conversion to fully paid ordinary shares would not increase the loss per share.

### NOTE 25 - SHARE-BASED PAYMENTS

The Company from time to time issues partly-paid ordinary shares to the executive director, key management personnel and other employees as part of their remuneration. To date 2,650,000 partly-paid shares have been issued in terms of this remuneration practice and details of these partly paid shares including movements over the past two years are set out in Note 14.

There was no cost associated with share based payments during the year as no share based payments were made.

## DIRECTORS' DECLARATION

In the directors' opinion:

- (a) the financial statements and notes set out in this financial report are in accordance with the Corporations Act 2001, including:
  - (i) complying with Accounting Standards and the Corporations Regulations 2001 and other mandatory professional reporting requirements; and
  - (ii) giving a true and fair view of the Company's and consolidated entity's financial position as at 30 June 2009 and of their performance for the financial year ended on that date; and
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

The directors have been given the declarations required by Section 295A of the Corporations Act 2001.

This declaration is made in accordance with a resolution of the directors.

N Tomkinson  
Chairman

Perth, 11 September 2009

## INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF HAMPTON HILL MINING NL

We have audited the accompanying financial report of Hampton Hill Mining NL, which comprises the balance sheet as at 30 June 2009, and the income statement, statement of changes in equity and cash flow statement for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the directors' declaration of the consolidated entity comprising the disclosing entity and the entities it controlled at the year's end or from time to time during the financial year.

### Directors' Responsibility for the Financial Report

The directors of the disclosing entity are responsible for the preparation and fair presentation of the financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that compliance with Australian equivalents to International Financial Reporting Standards ensures that the financial report, comprising the financial statements and notes, complies with International Financial Reporting Standards.

### Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001* would be in the same terms if it had been given to the directors at the time that this auditor's report was made.

## Auditor's Opinion

In our opinion the financial report of Hampton Hill Mining NL is in accordance with the *Corporations Act 2001*, including:

- (a) (i) giving a true and fair view of the company's and consolidated entity's financial position as at 30 June 2009 and of their performance for the year ended on that date; and  
(ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Regulations 2001*.
- (b) the financial report also complies with International Financial Reporting Standards as disclosed in Note 1.

## Report on the Remuneration Report

We have audited the Remuneration Report included in paragraphs (a) to (e) of the directors' report for the year ended 30 June 2009. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

## Auditor's Opinion

In our opinion, the Remuneration Report of Hampton Hill Mining NL for the year ended 30 June 2009, complies with section 300A of the *Corporations Act 2001*.
