

# HAMPTON HILL MINING NL

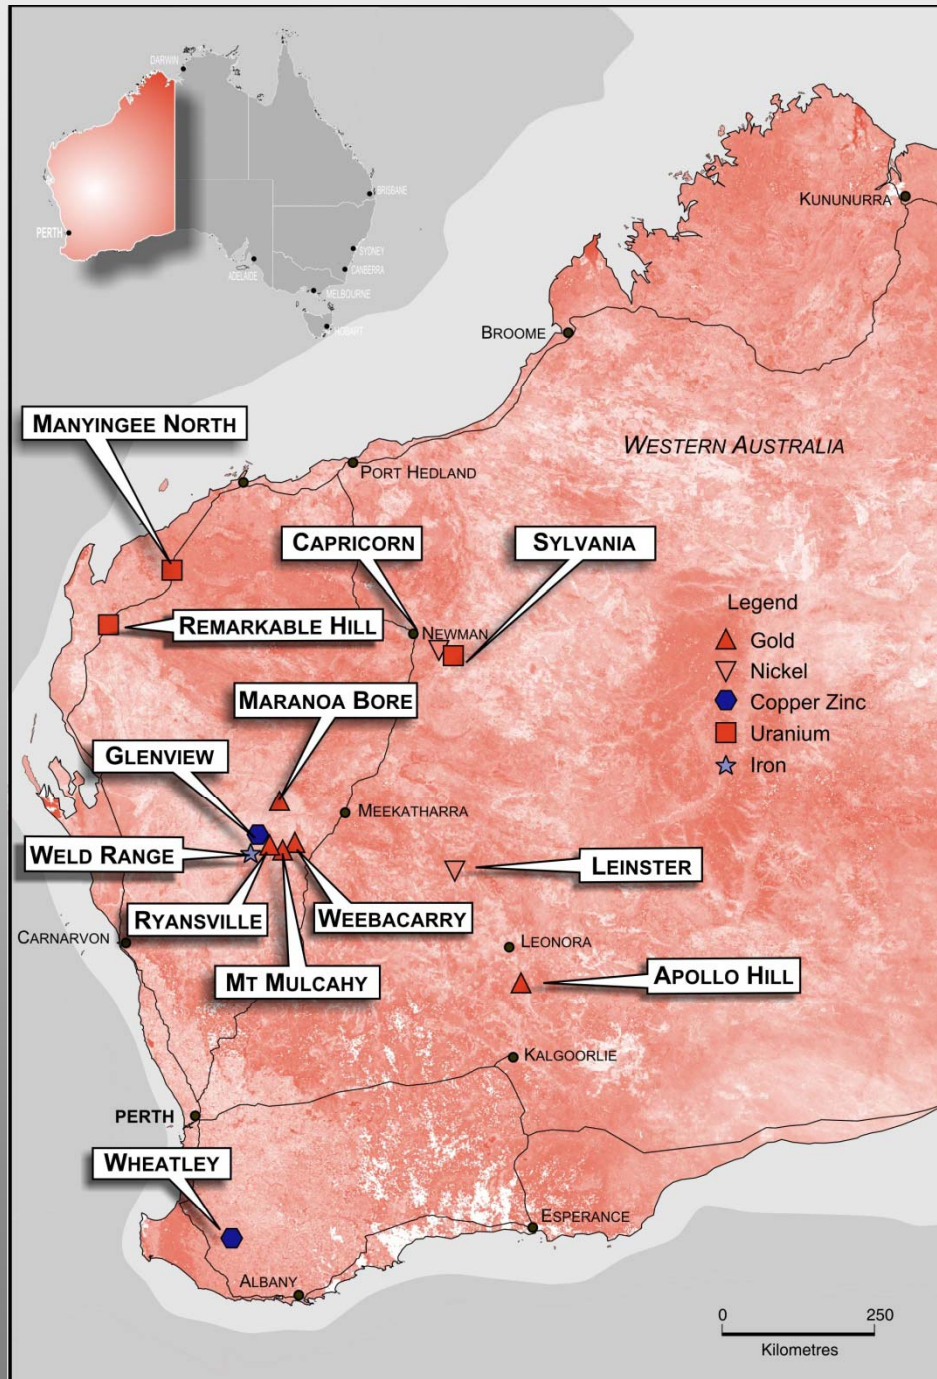

Presentation  
2007

**COMPLIANCE STATEMENT**

*The information in the above report that relates to exploration results has been reviewed and confirmed as accurate by Mr Wilson Forte who is a member of the AusIMM and a competent person as defined in the 2004 edition of the Australian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves and has given his consent to its inclusion.*

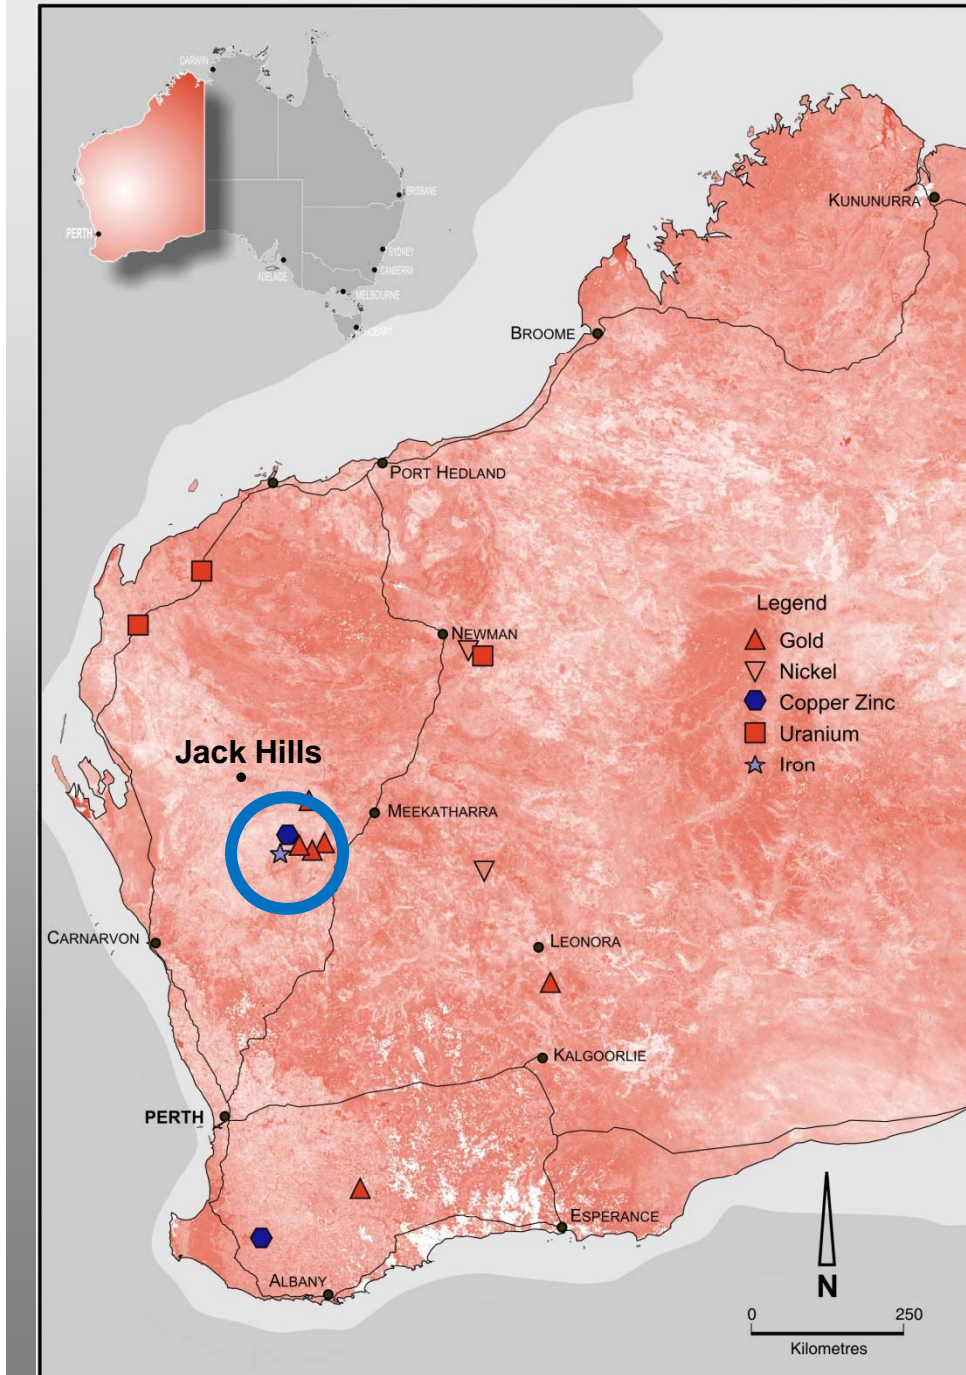

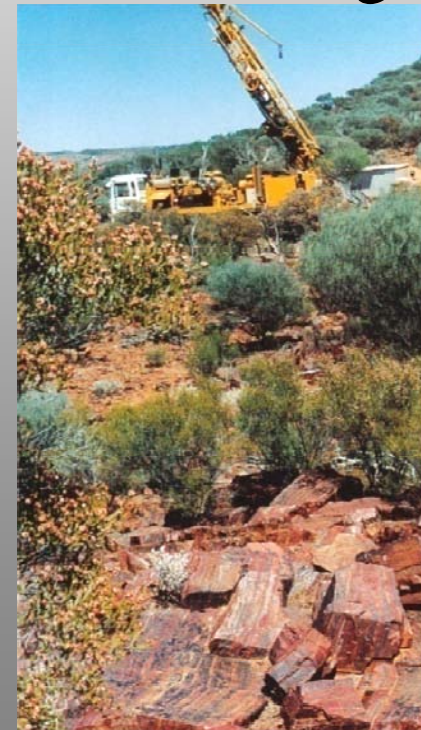

# HAMPTON HILL MINING

## Project Locations

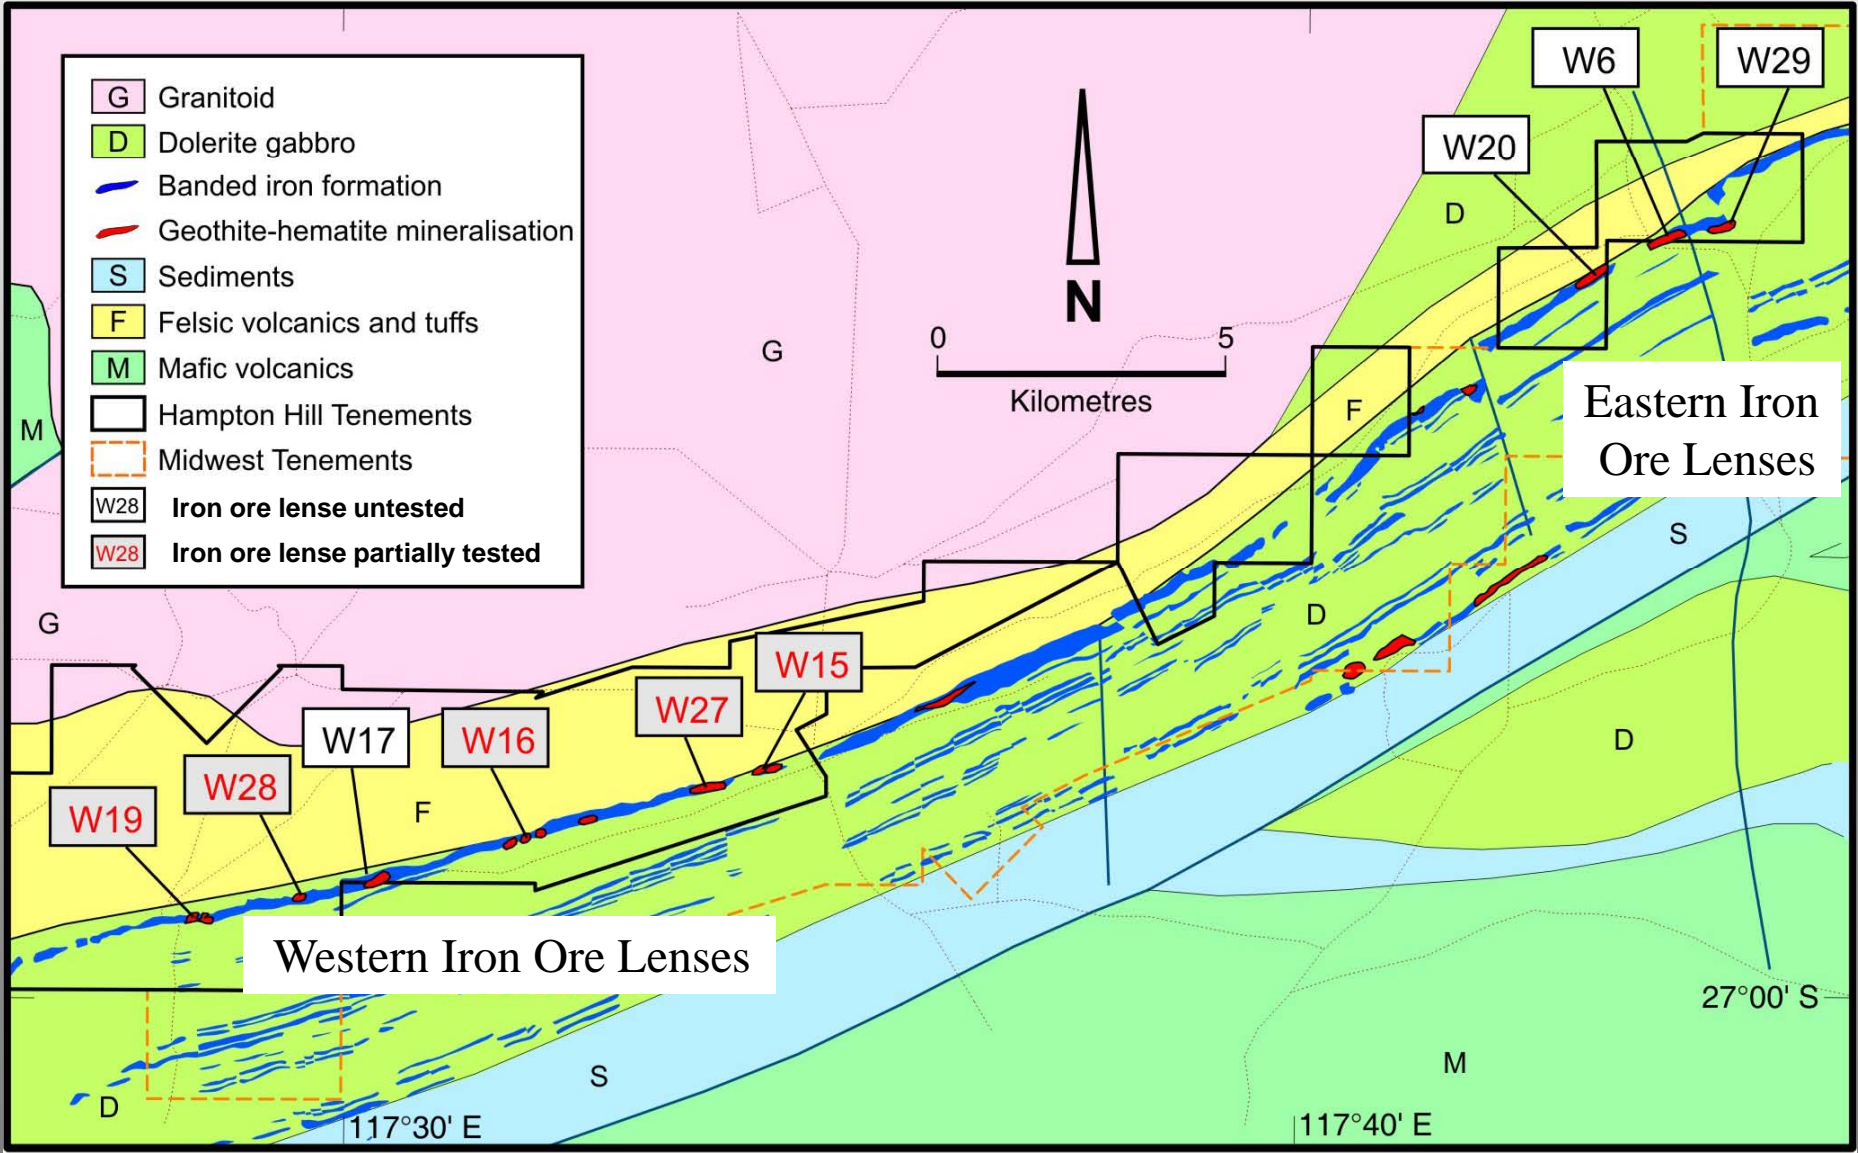

# HAMPTON HILL MINING

## Weld Range Direct Shipping Ore Project (Midwest earning 60%)

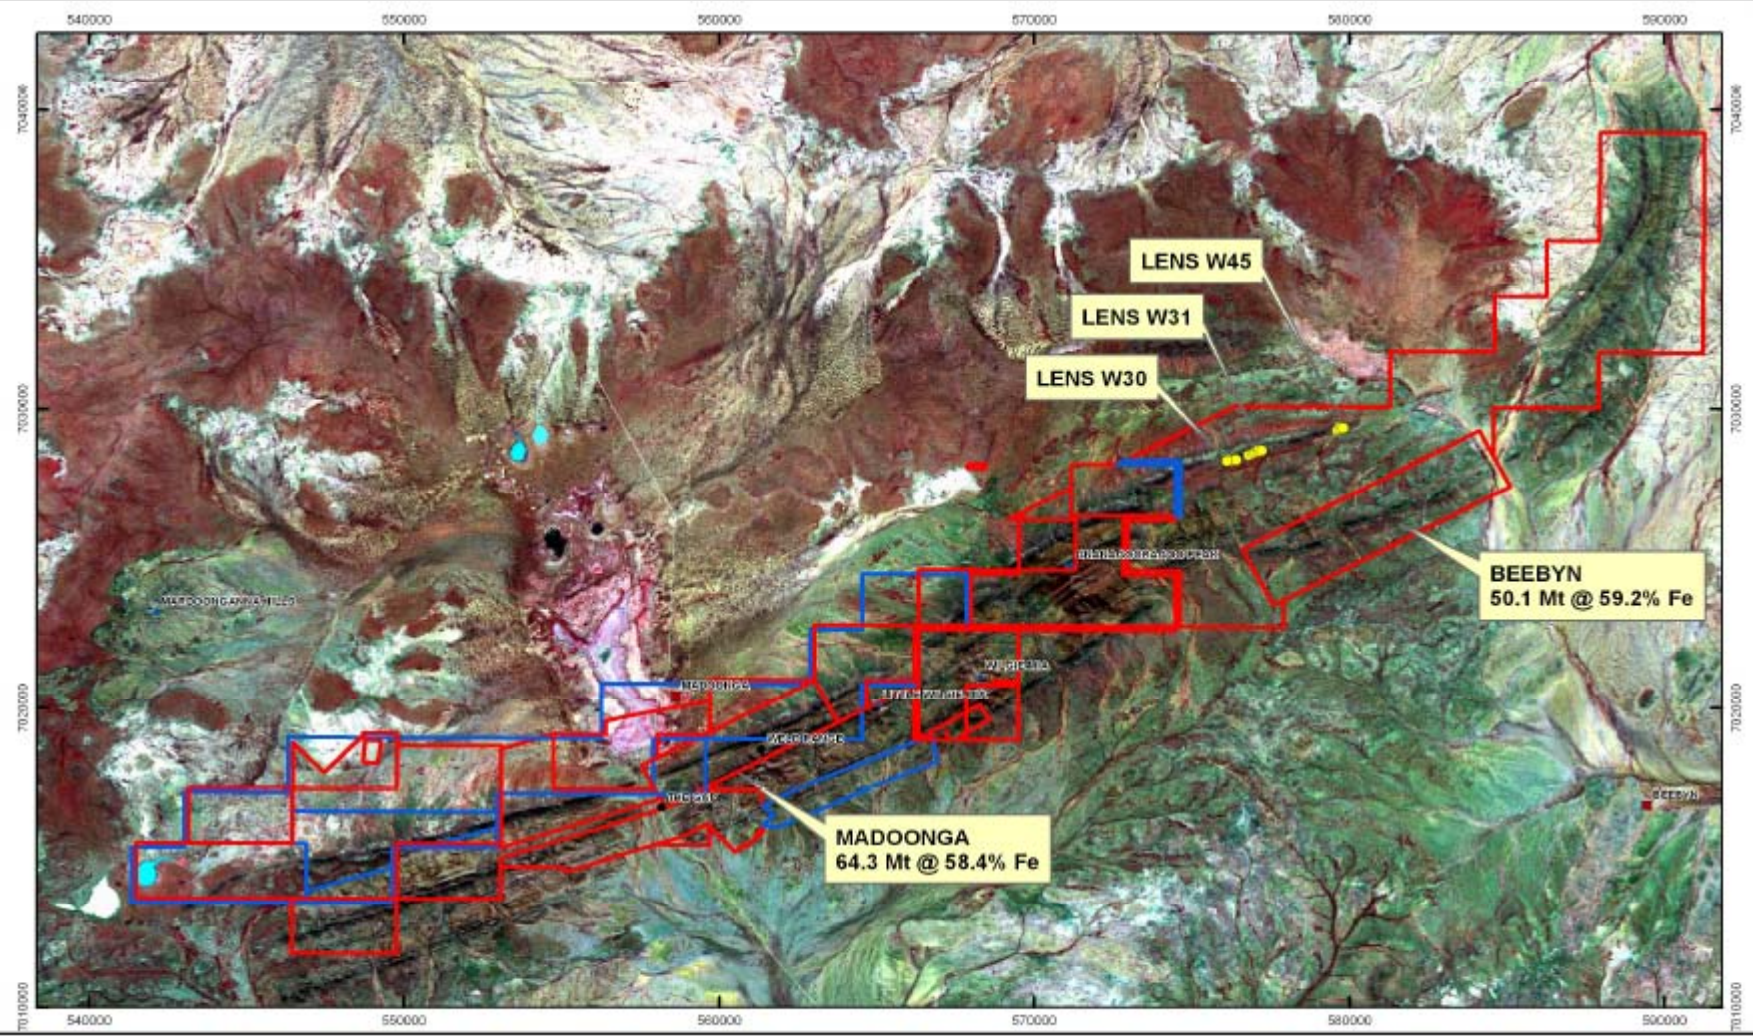

# Weld Range Direct Shipping Ore Project

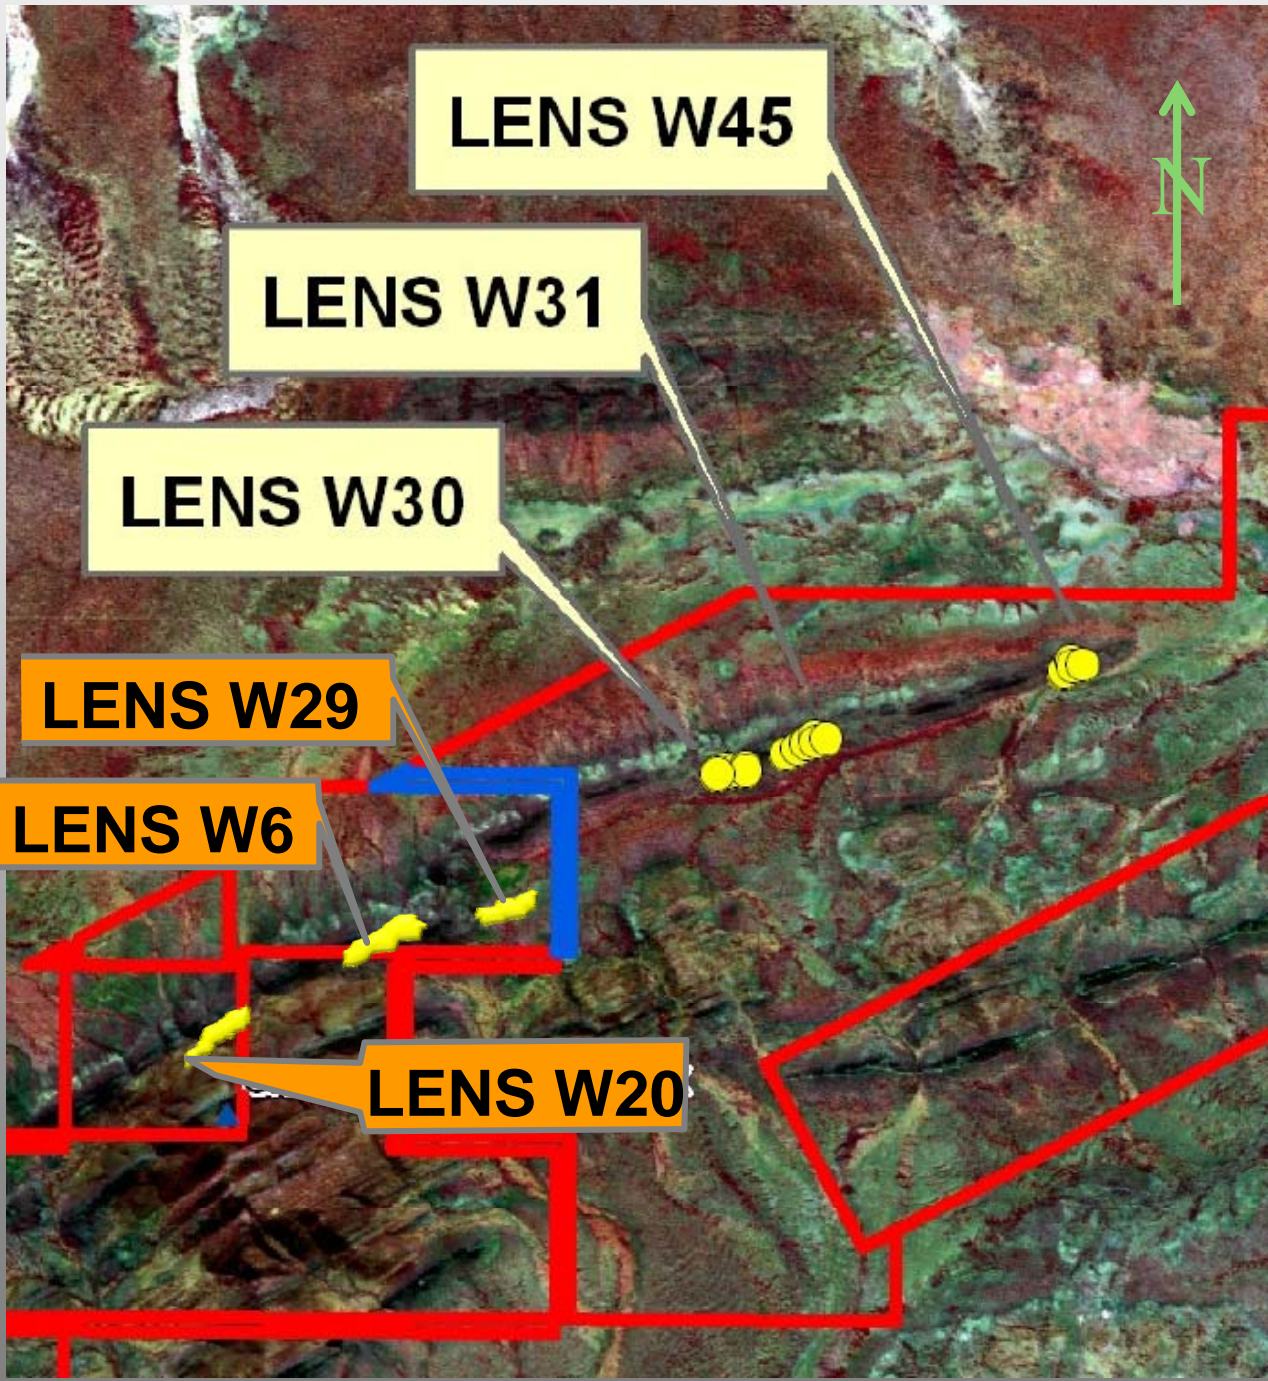

# Weld Range Direct Shipping Ore Project

HAMPTON HILL  
MINING

## Midwest Iron Ore Resources

HAMPTON HILL  
MINING

Weld Range Direct  
Shipping Ore Project

Recent Midwest  
drilling results:

W45 -54m @ 55.1% Fe

W31 -66m @ 57.9% Fe

W30 -62m @ 58.4% Fe

Iron Ore Lenses

Midwest

Hampton/ Midwest  
promising untested lenses

# Weld Range Direct Shipping Ore Project

HAMPTON HILL  
MINING

- JV with Midwest Corporation Ltd in JV with Chinese company Sino Steel Corporation (Midwest earning 60%)

## Western Iron Ore Lenses

- First pass drilling beneath surface hematite returned high grade iron mineralisation
- Best result to date: 16m @ 59.6% Fe
- Follow up drilling planned for 2008

## Eastern Iron Ore Lenses

- All three lenses remain untested

## 2008

- Extensive drilling campaign to commence in early 2008
- Midwest plan completion of prefeasibility studies by October 2008

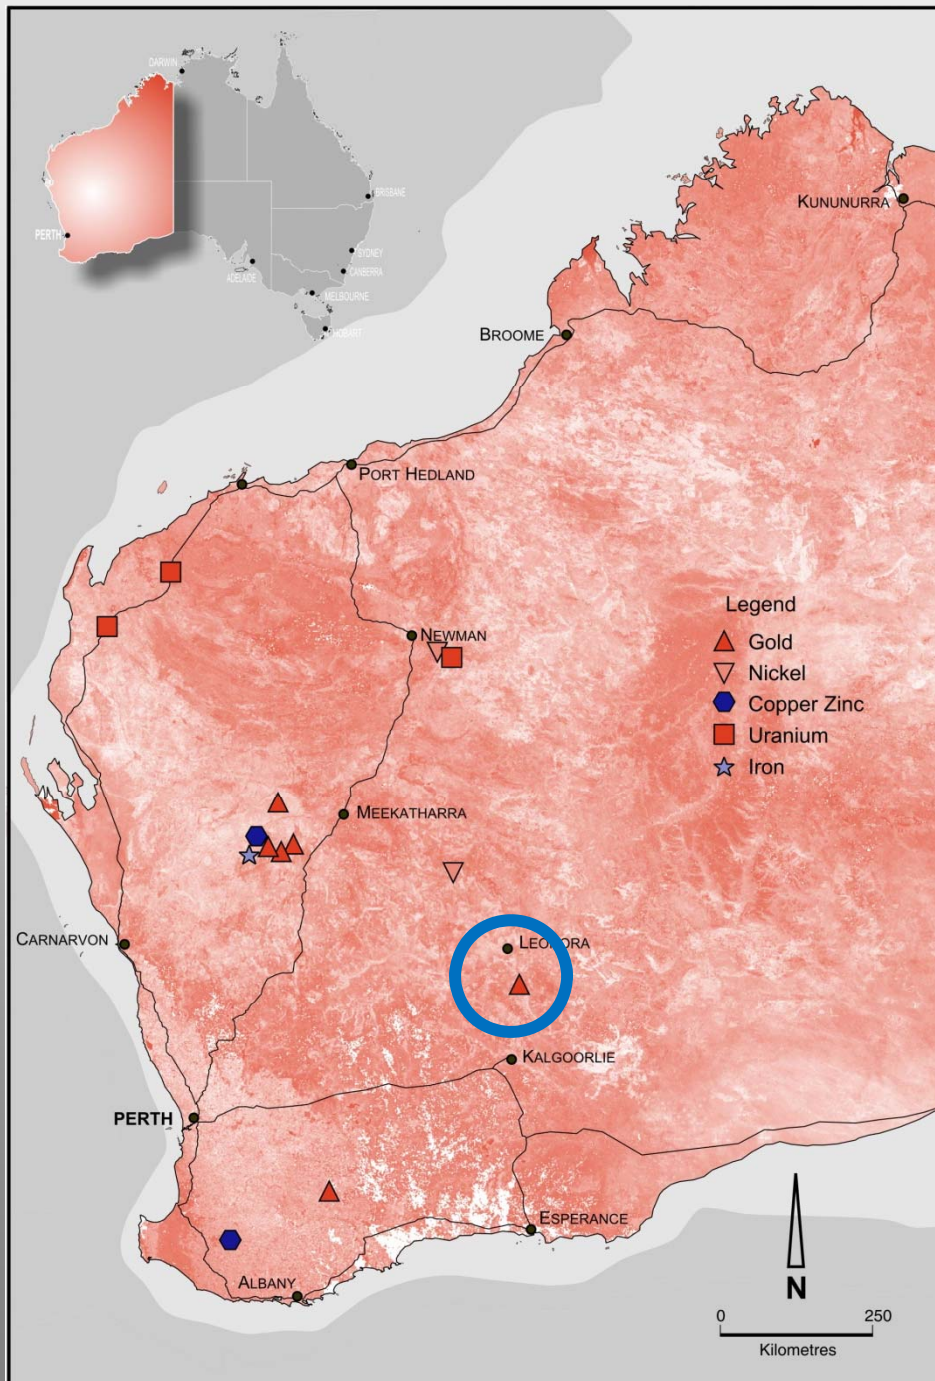

## HAMPTON HILL MINING

# Apollo Hill Gold Project

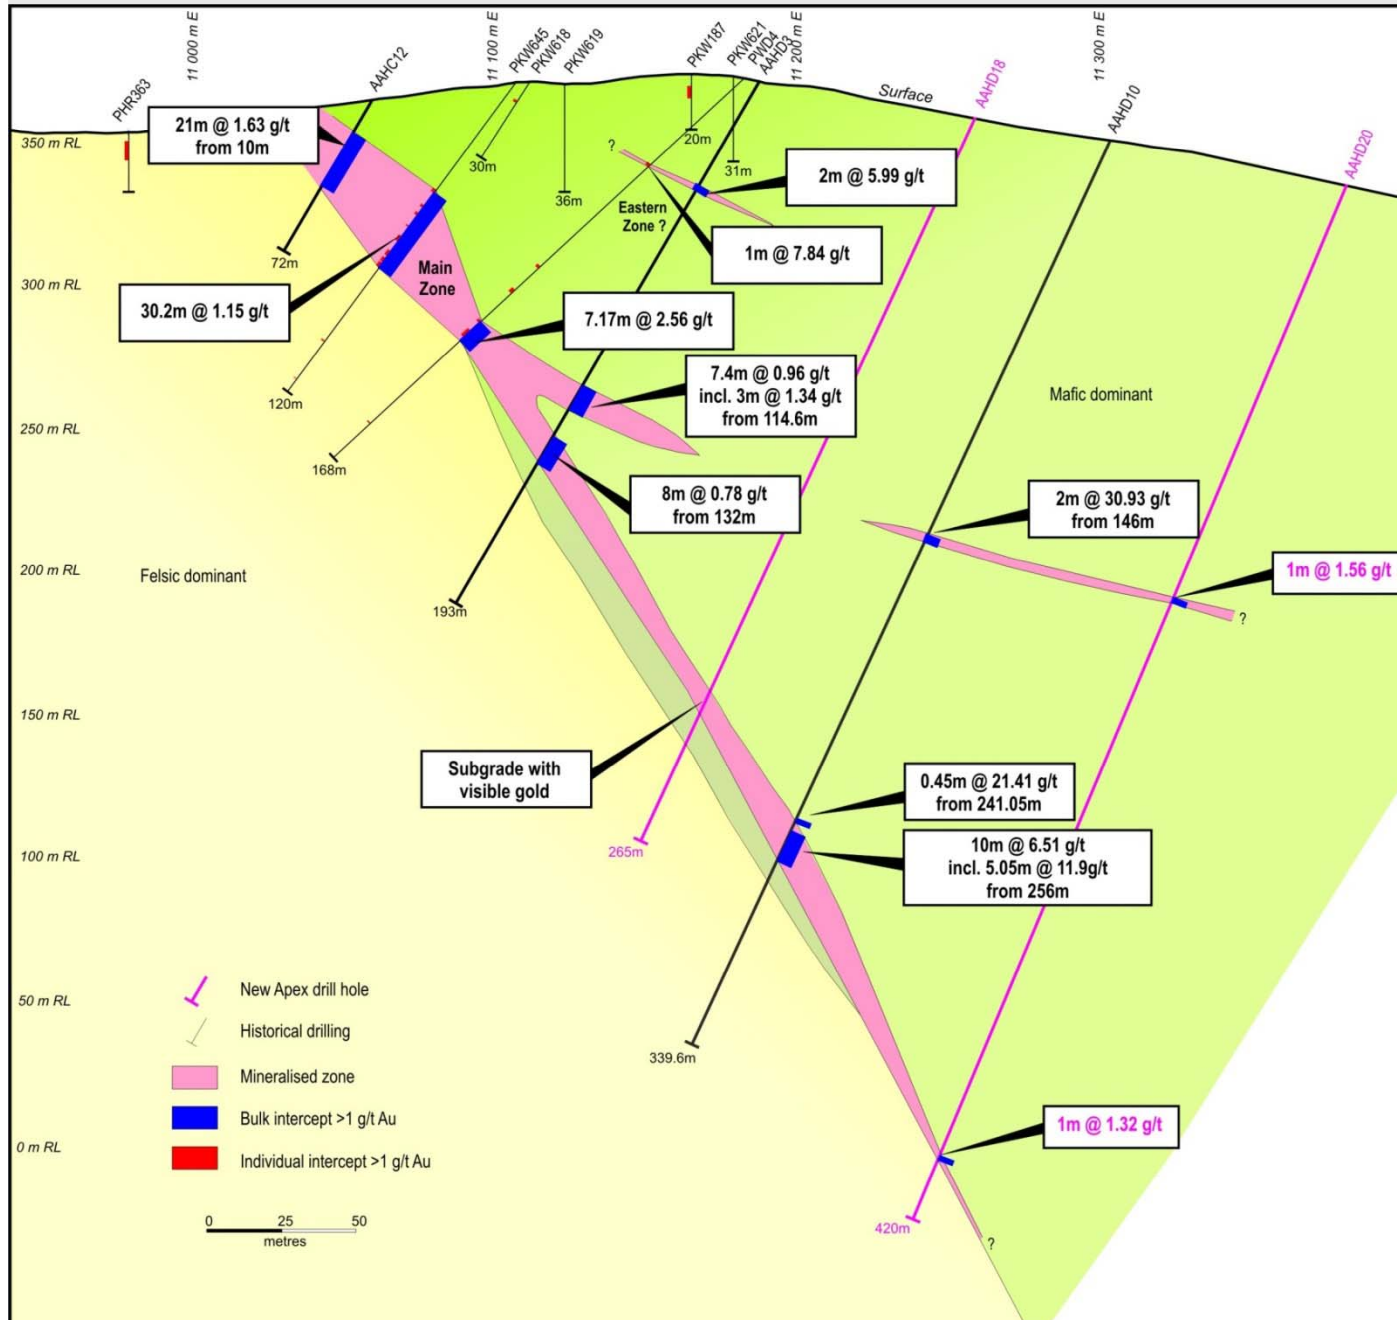

JV- Apex Minerals Spending \$3million  
over 3 years to earn 51%

HAMPTON HILL  
MINING

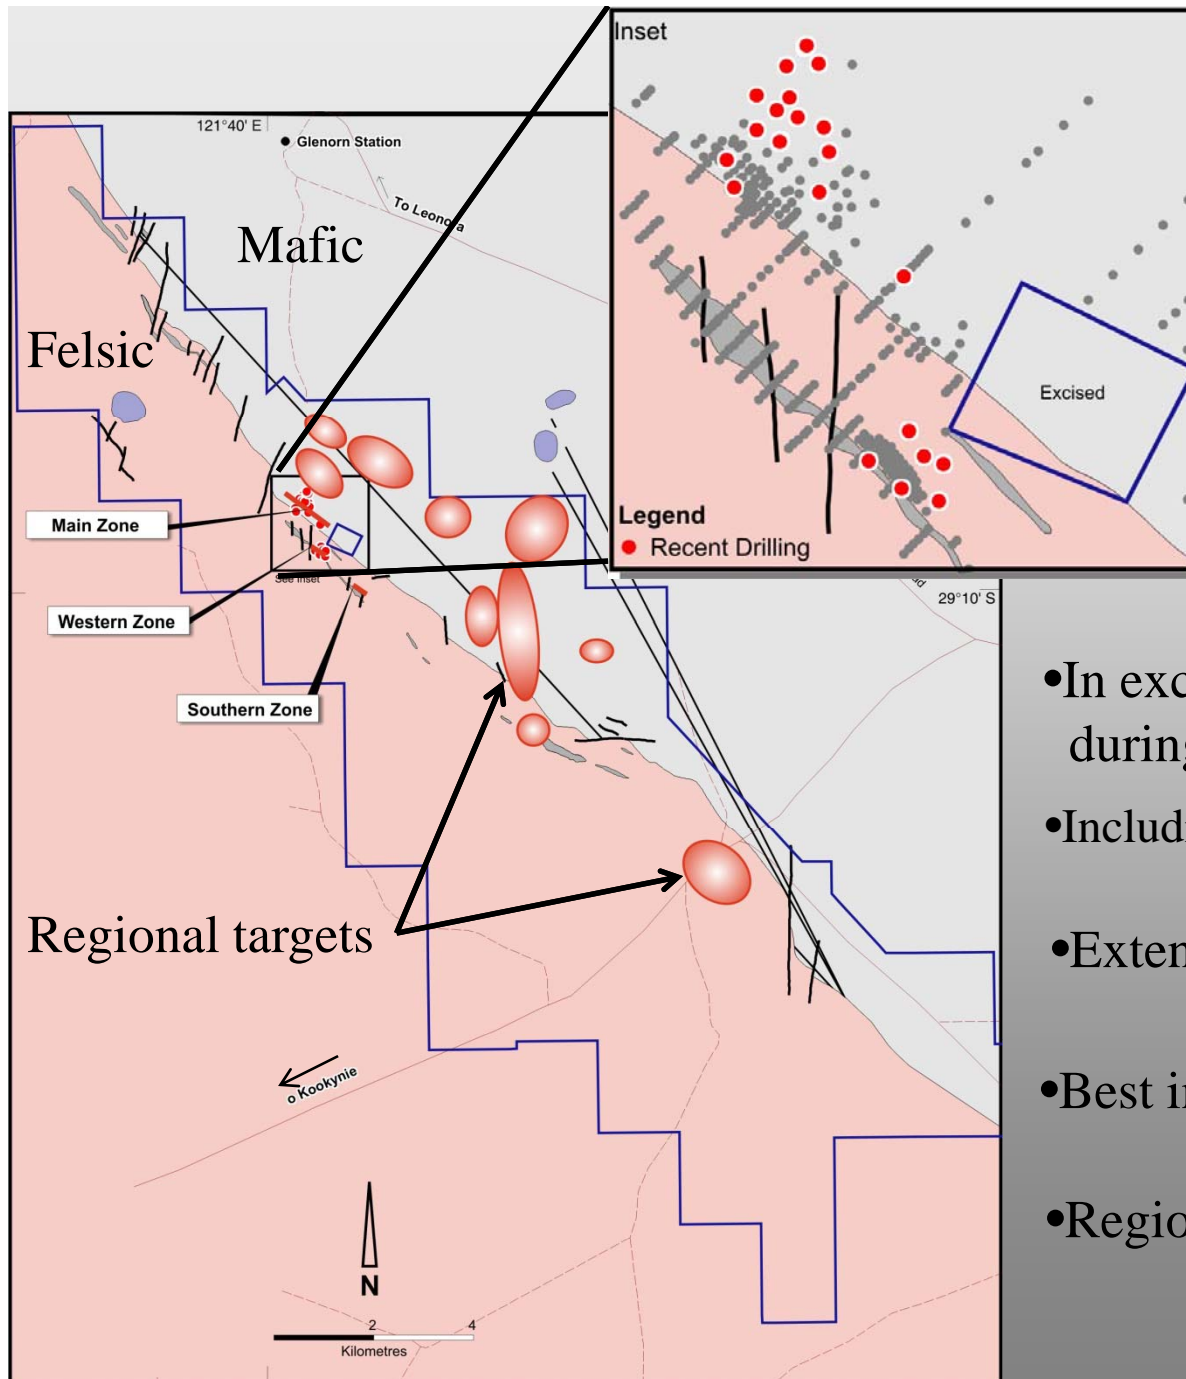

Apollo Hill  
Gold Project

Main Zone  
Northern Section  
17610N

# HAMPTON HILL MINING

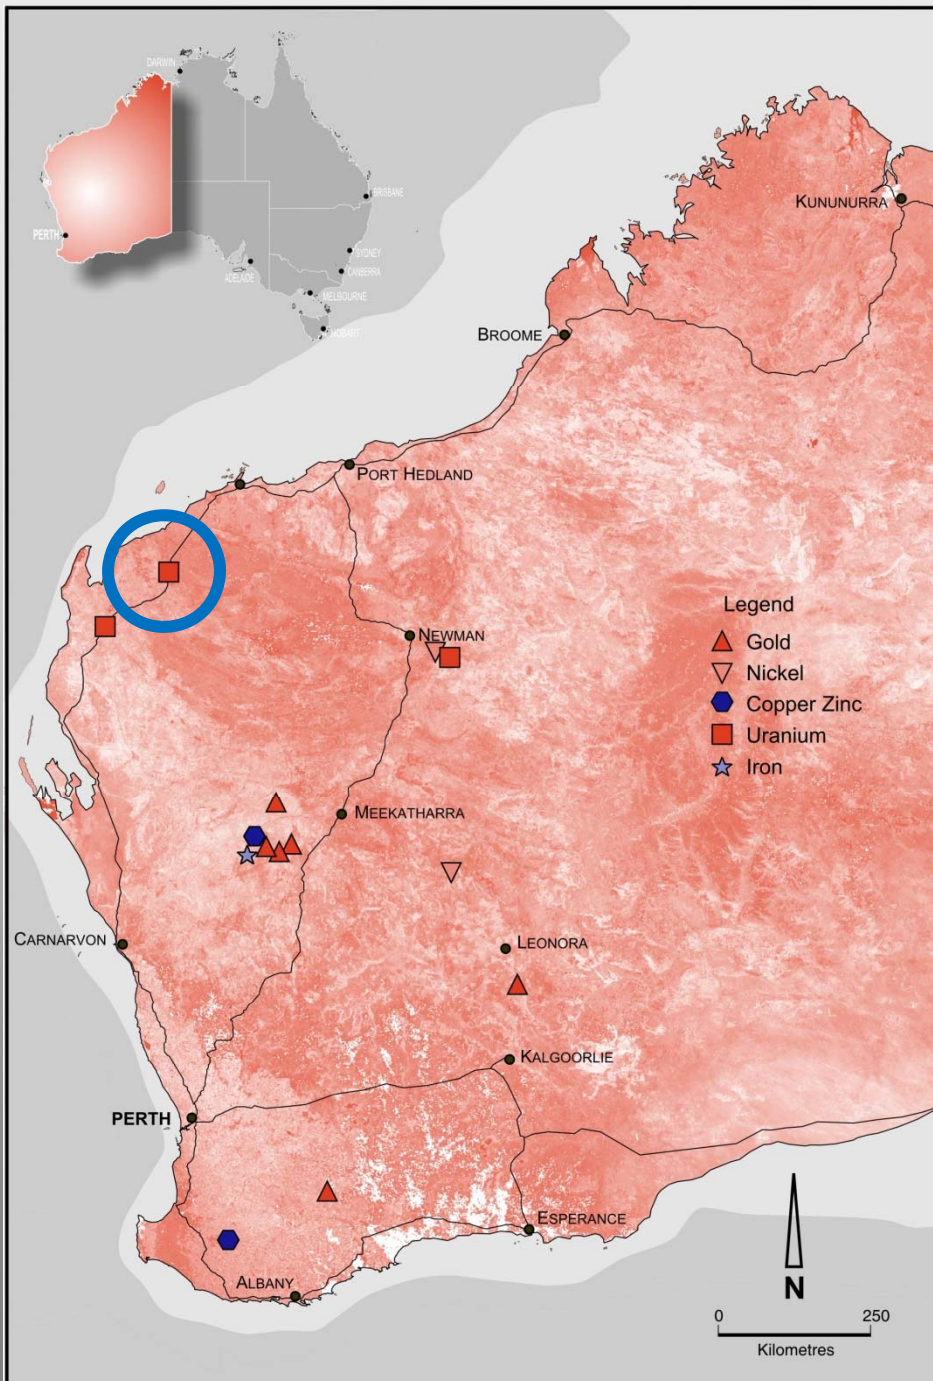

## Apollo Hill Gold Project

- In excess of \$1 million spent on drilling during first year
- Including 26 RC and Diamond holes drilled
- Extending known gold mineralisation
- Best intercept 10metres @ 6.5g/t gold
- Regional gold targets to be tested 2008

# HAMPTON HILL MINING

## Manyingee North Project Uranium

# HAMPTON HILL MINING

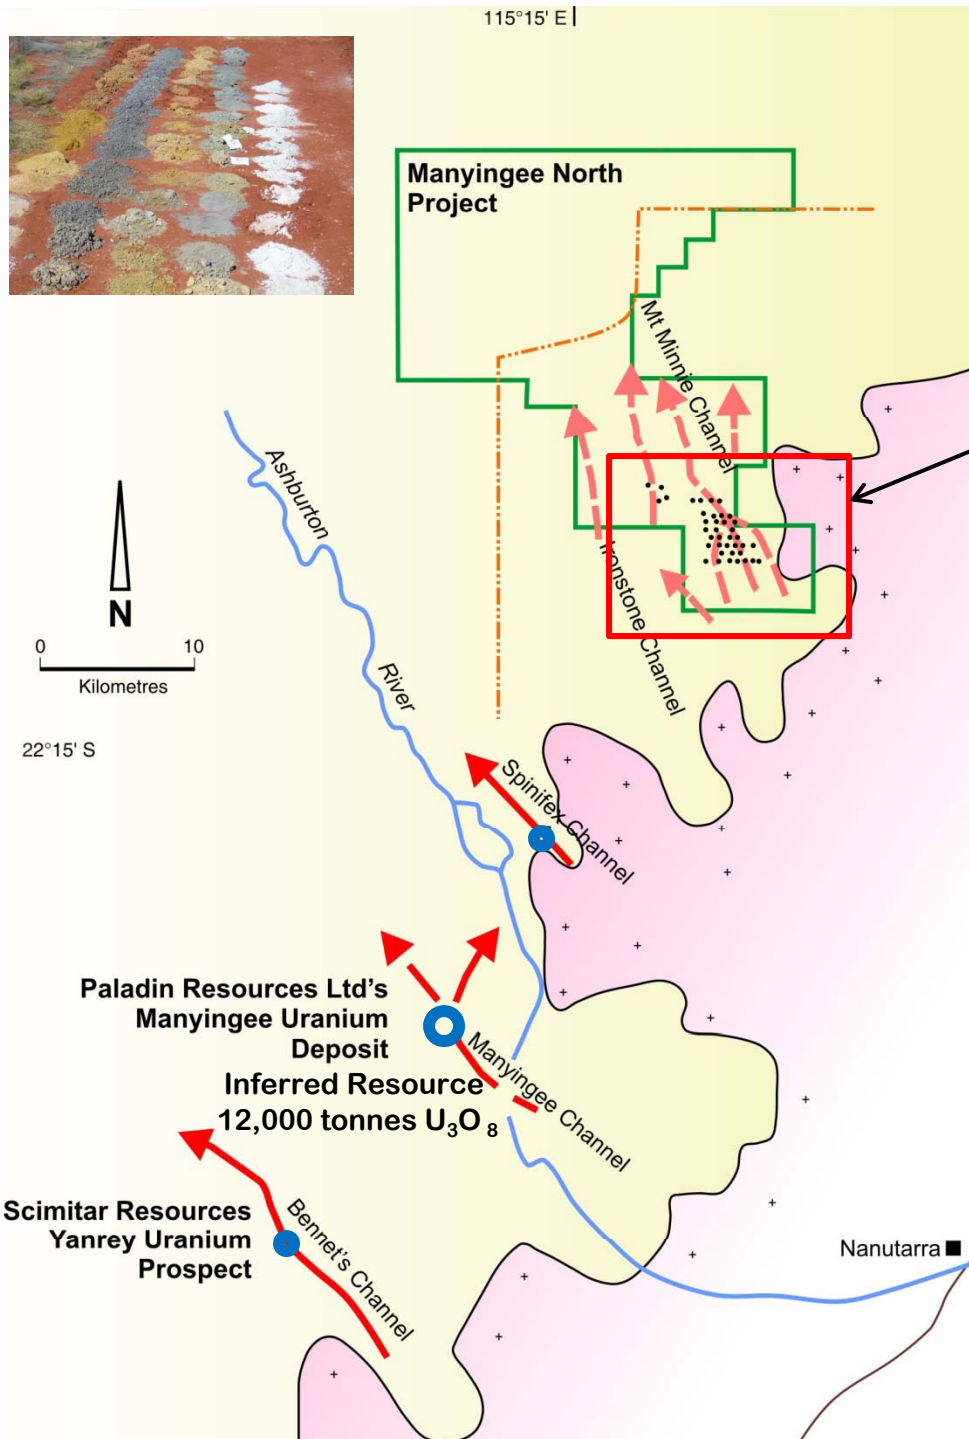

## Manyingee North Project

- 39 Aircore drillholes on 500 metre grid
- Buried channels identified
- Best results:

3m @ 303ppm  $U_3O_8$  from 69m incl 1m @ 507ppm  $U_3O_8$

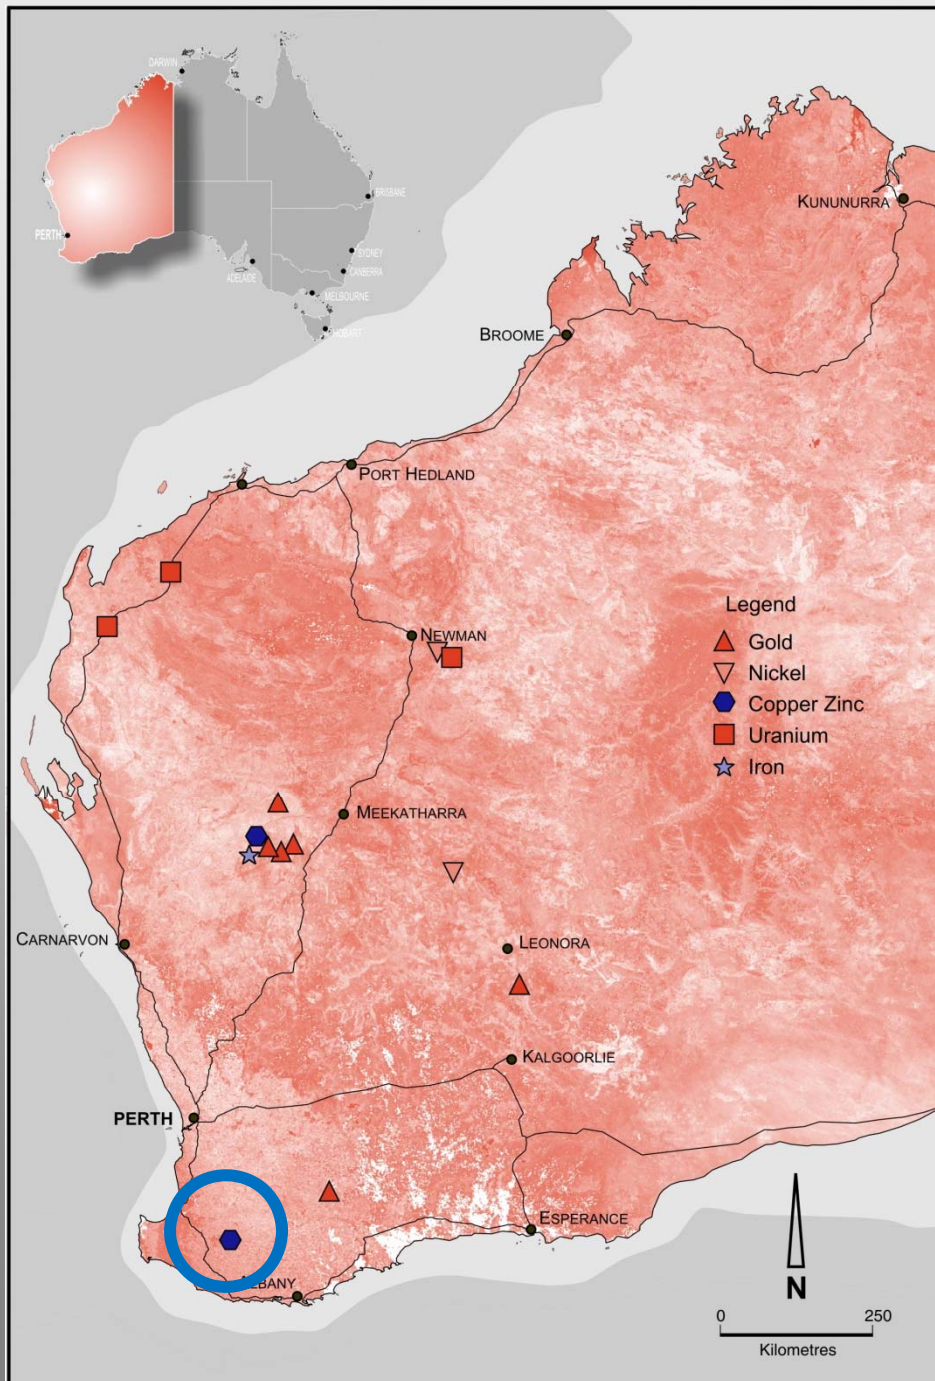

- 8 Aircore drillholes on 200 metre grid follow up (awaiting results)

# HAMPTON HILL MINING

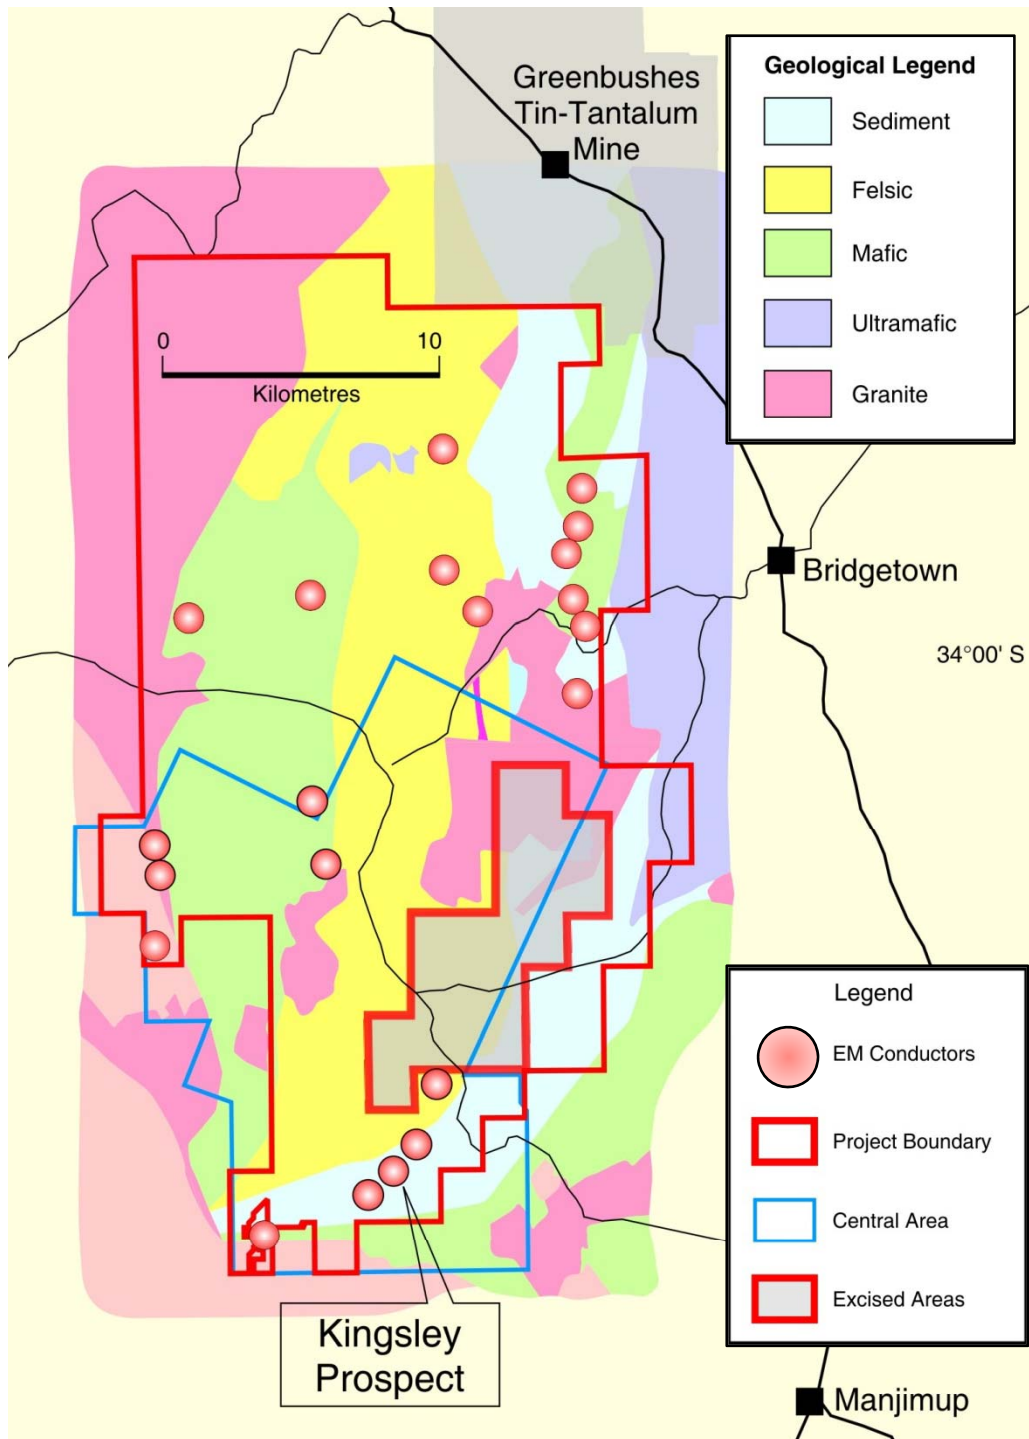

## Wheatley Base Metal Project

## HAMPTON HILL MINING

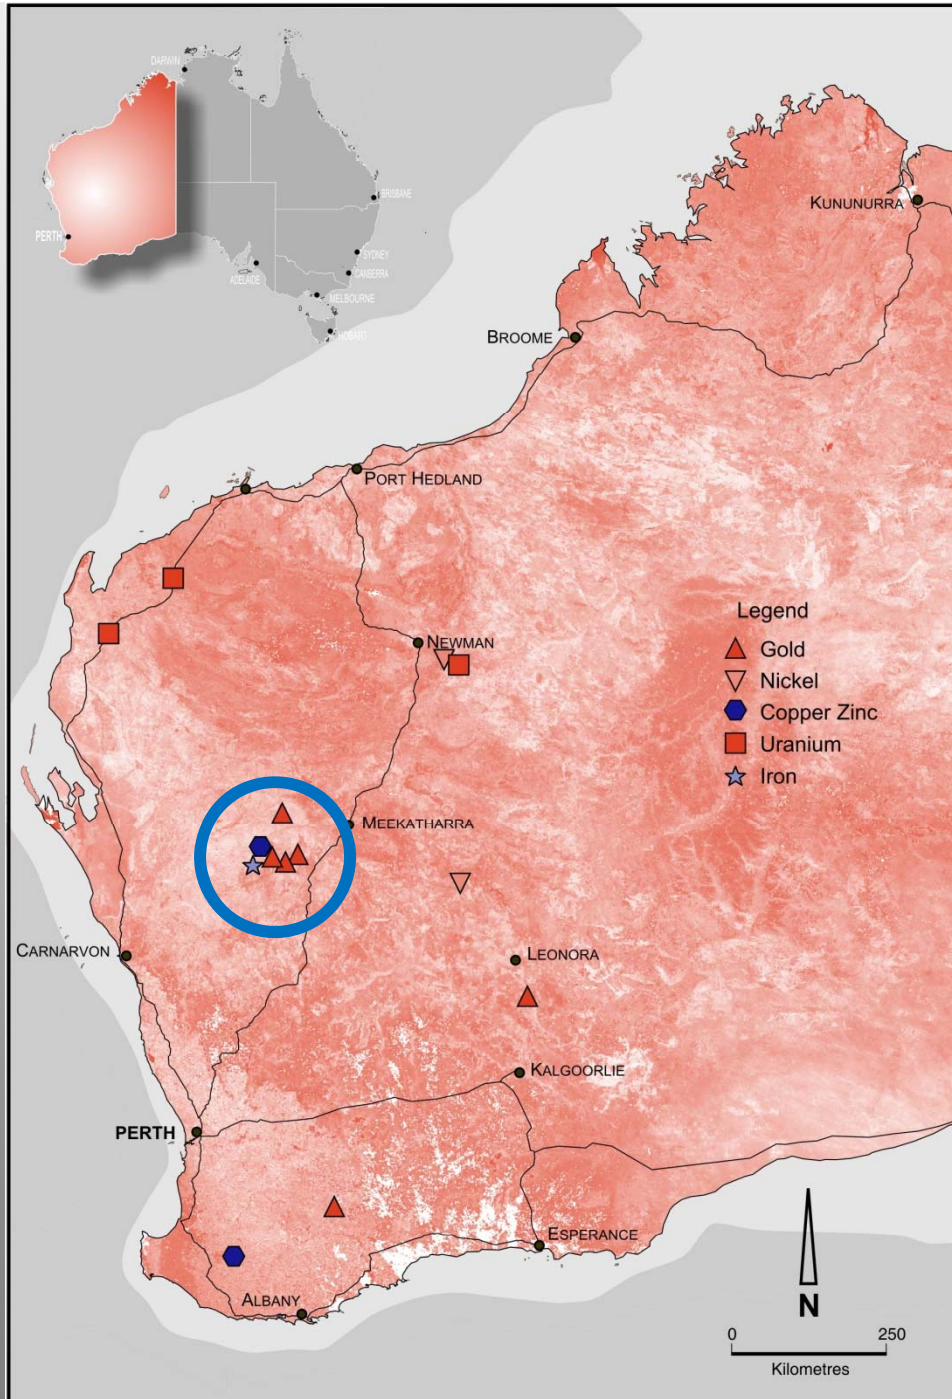

# Wheatley Base Metal Project

- Hampton took over management during 2007
- Over \$300,000 expended since takeover
- Main focus was at Kingsley with 5 diamond holes drilled
- Reviewing regional EM anomalies for further drill testing

# HAMPTON HILL MINING

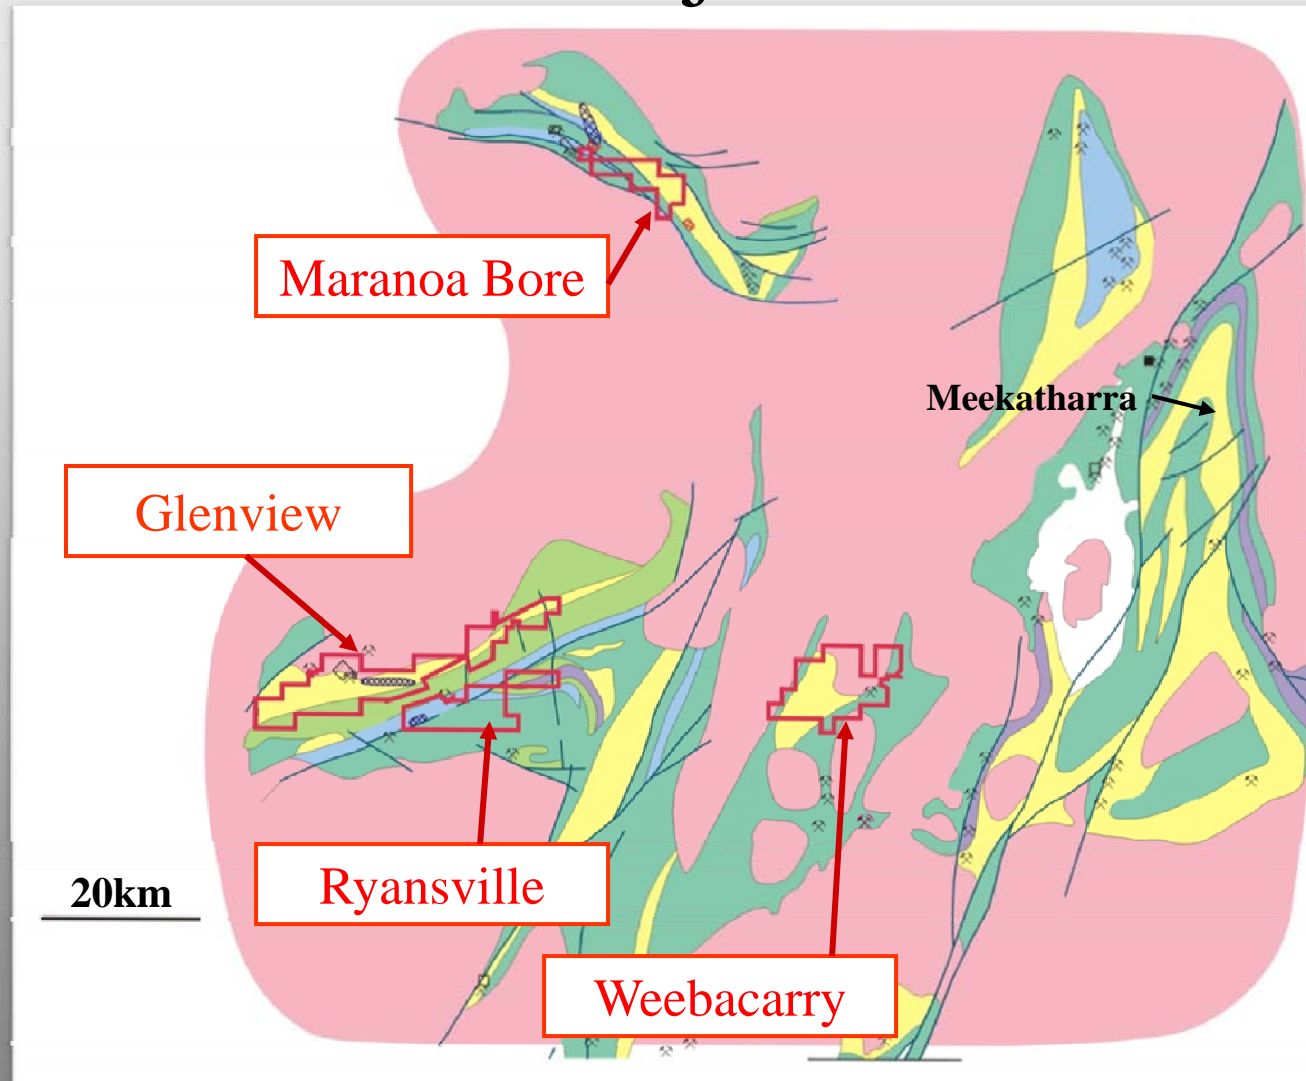

## Murchison Projects

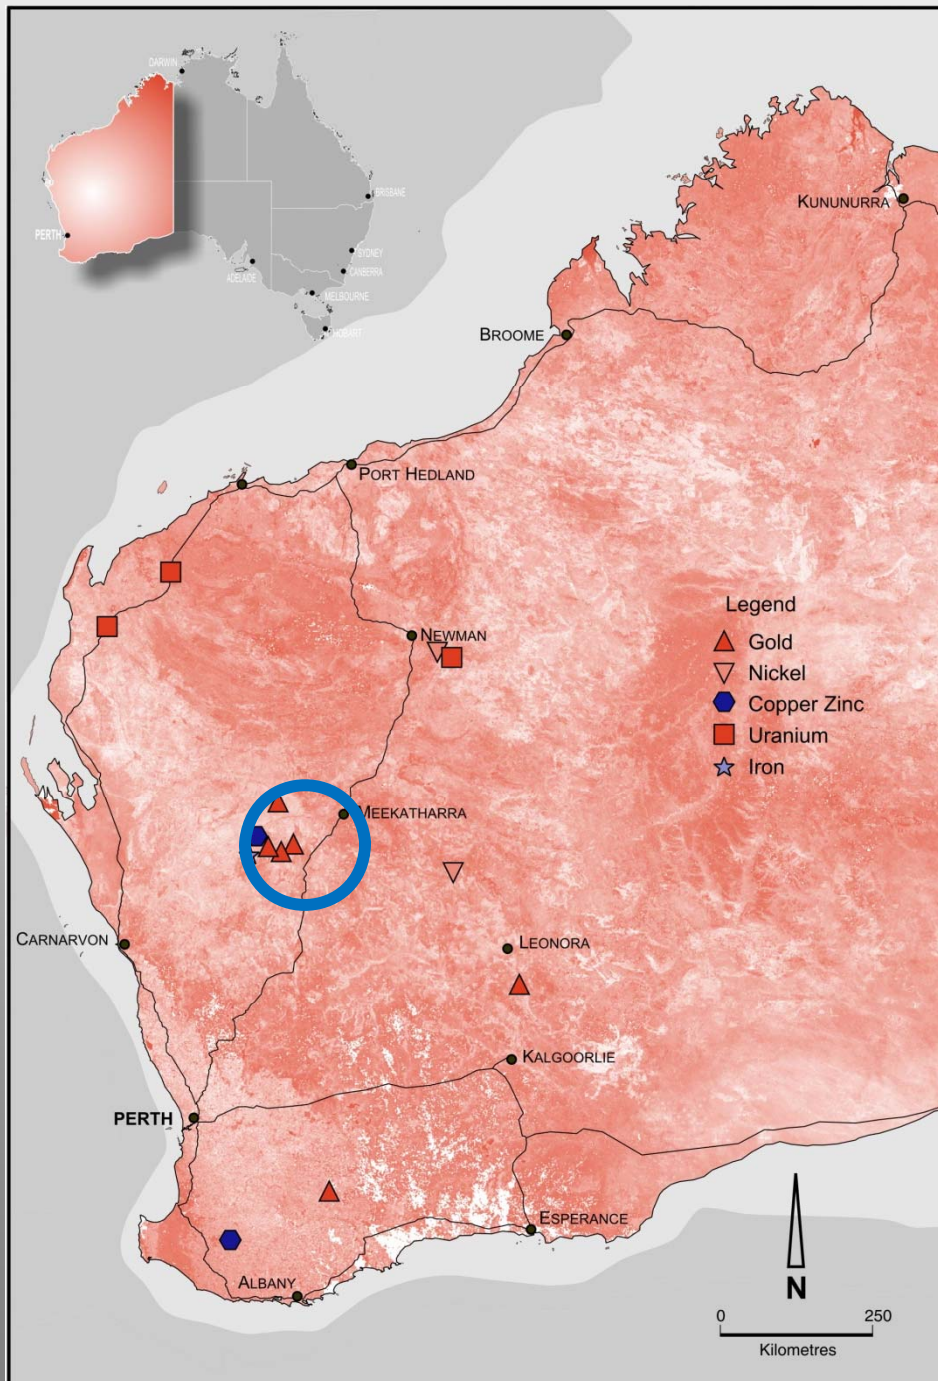

# Murchison Projects

HAMPTON HILL  
MINING

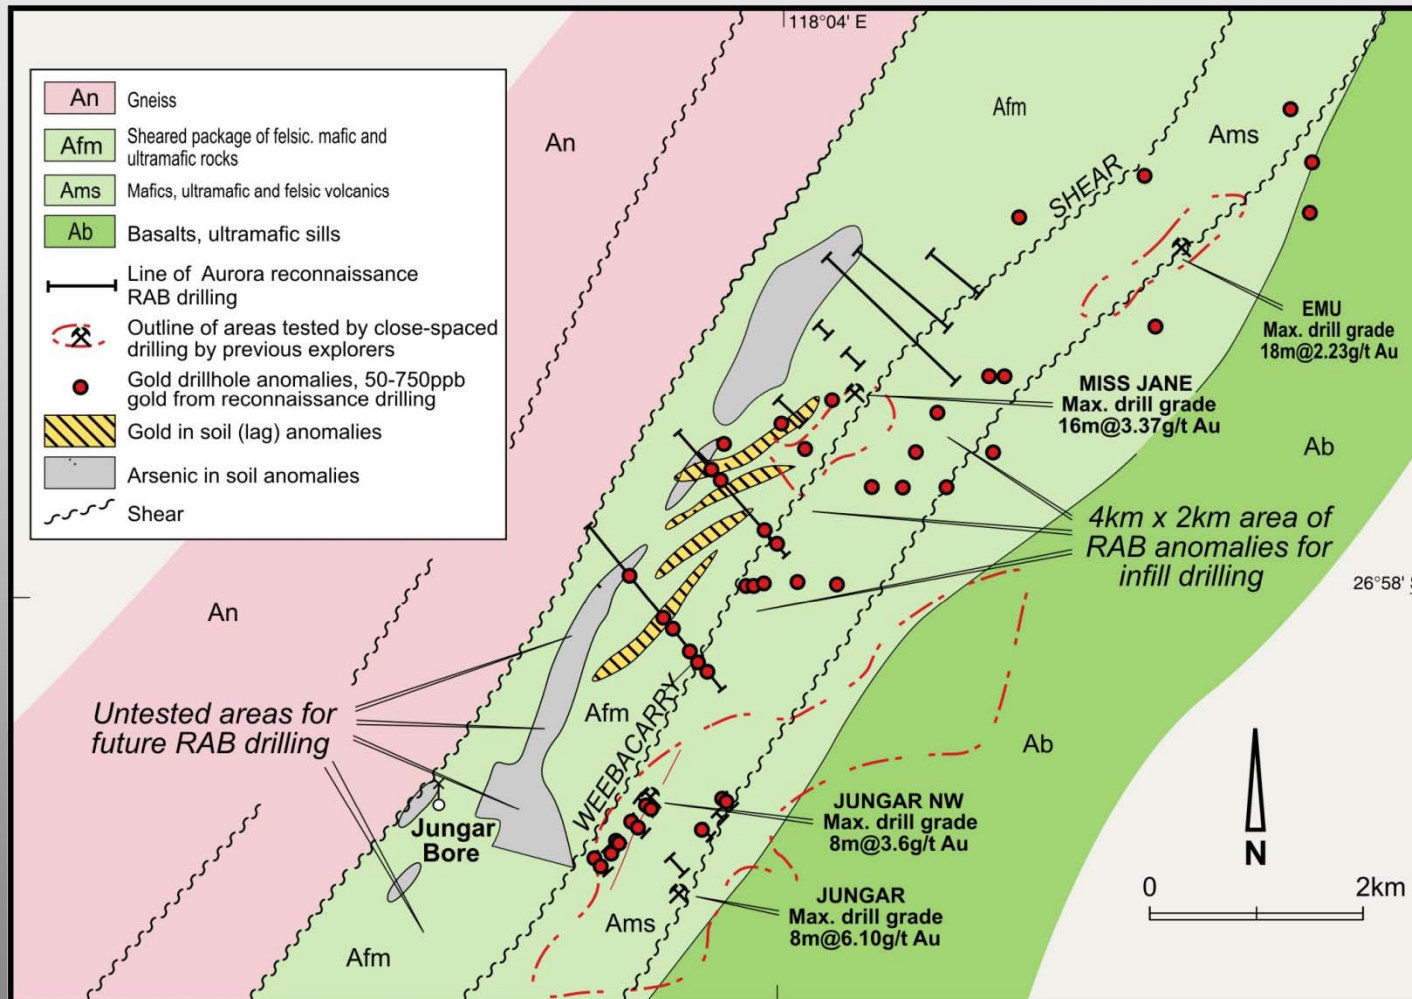

# HAMPTON HILL MINING

## Weebacarry Gold Project

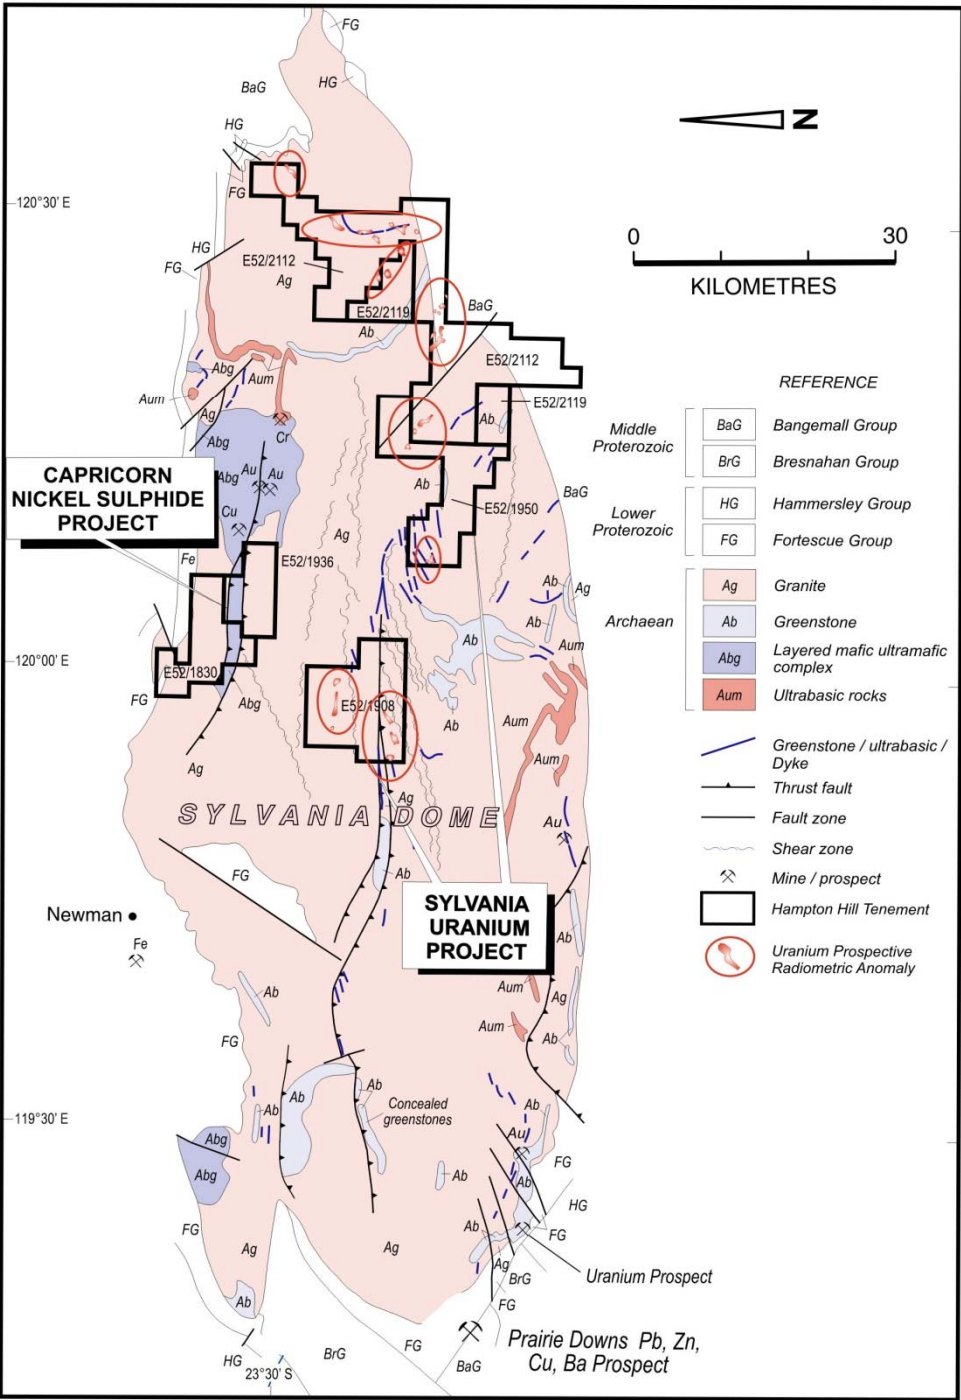

# Weebacarry Gold Project

- Aurora recently withdrew from JV
- Initial review of data indicates further work required for 2008

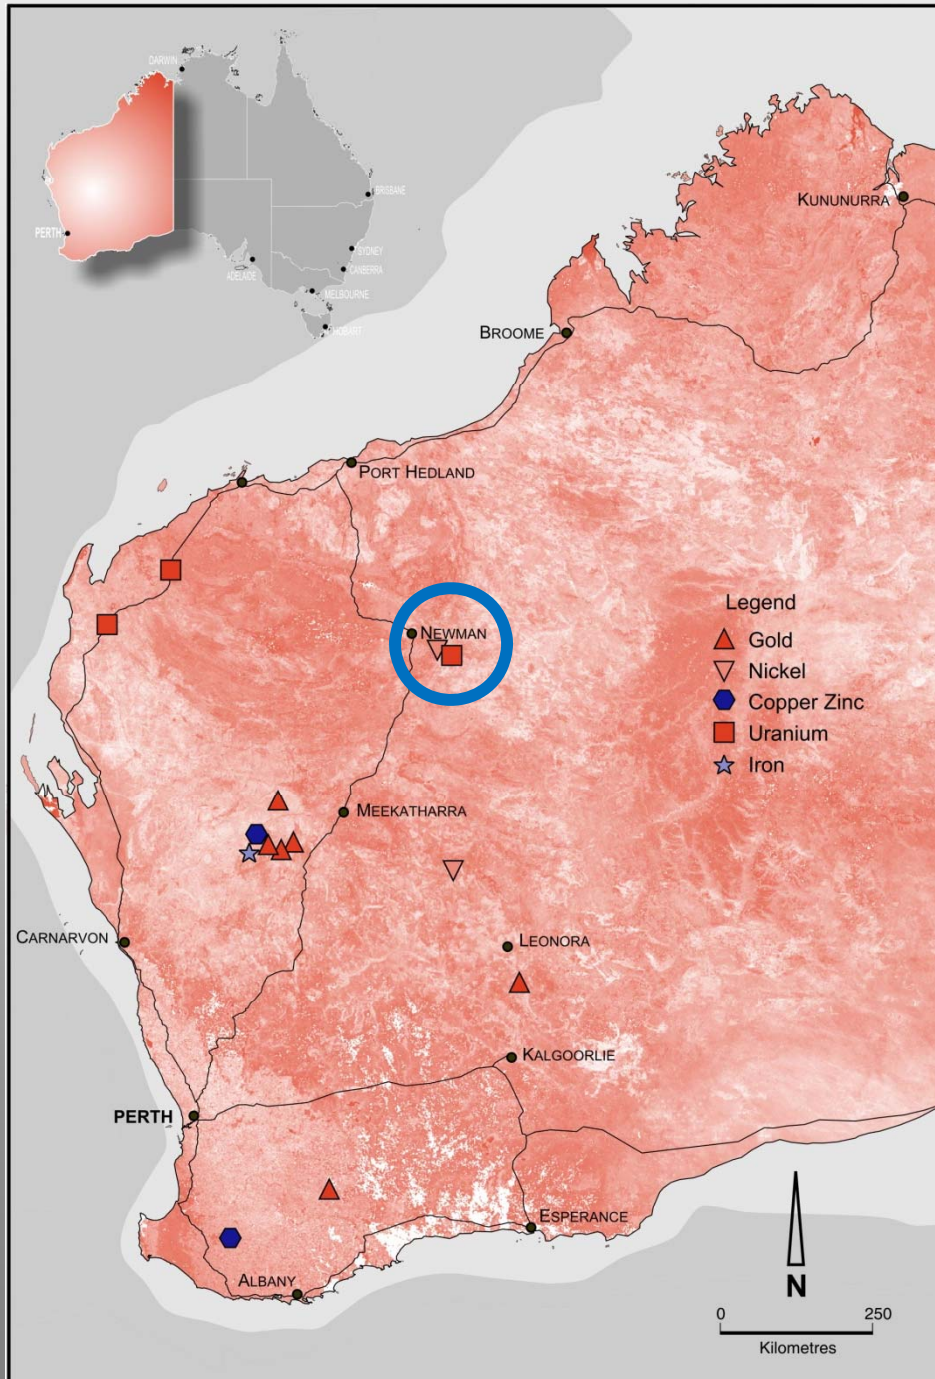

# HAMPTON HILL MINING

## Capricorn Nickel Sulphide and Sylvania Uranium Projects

# HAMPTON HILL MINING

## Capricorn Nickel Sulphide and Sylvania Uranium Projects

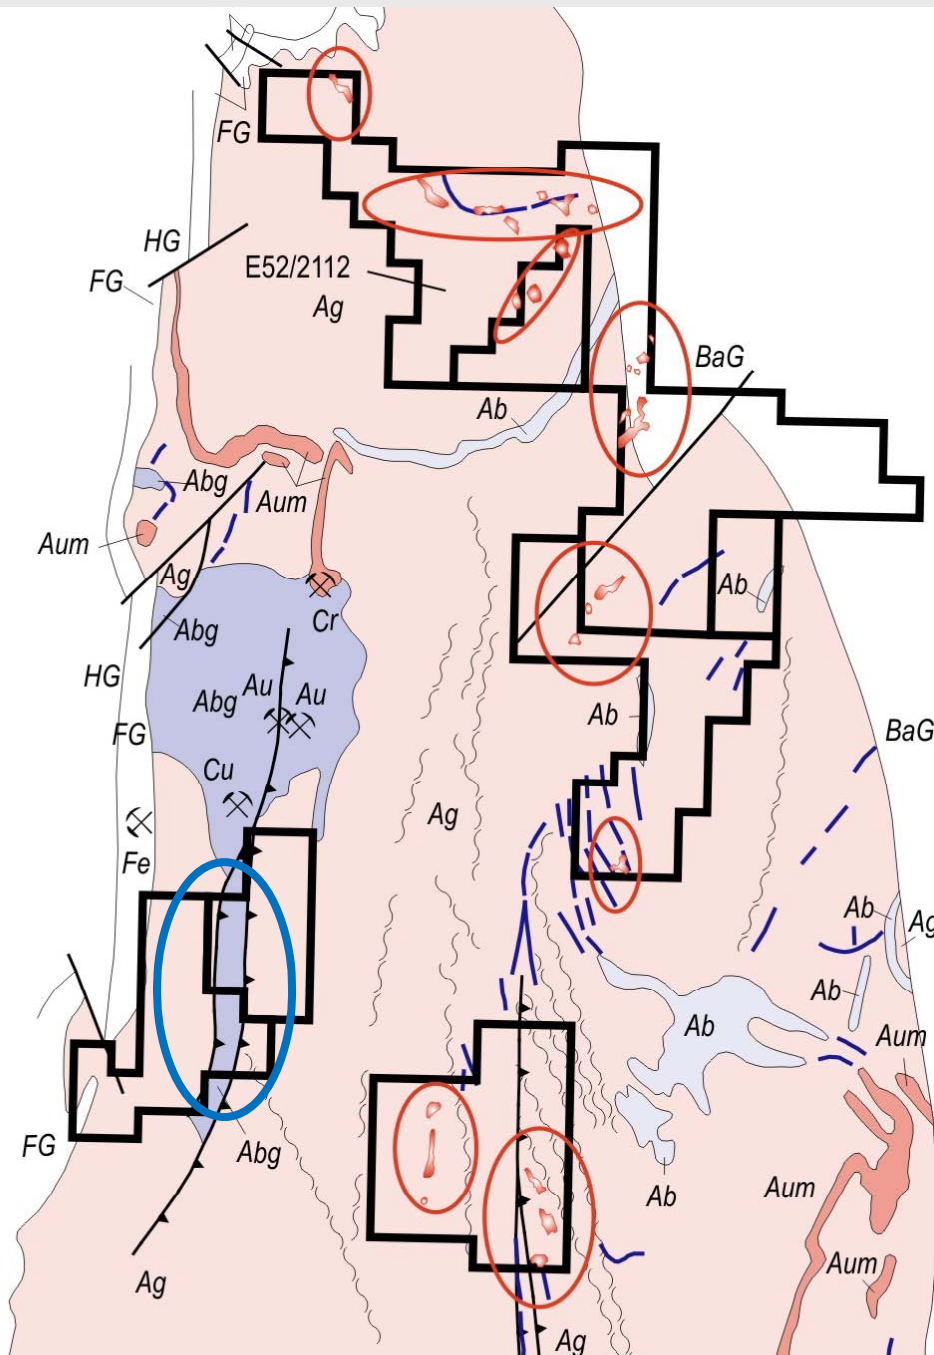

## HAMPTON HILL MINING

### Capricorn Nickel Sulphide

- Best drilling results to date:  
2 metres @ 1.36% nickel, 0.62% copper  
0.8 ppm platinum
- Soil program completed to test extensions of Jimlebar greenstone belt. Results awaited
- Seeking JV partner to fund new concepts

### Sylvania Uranium

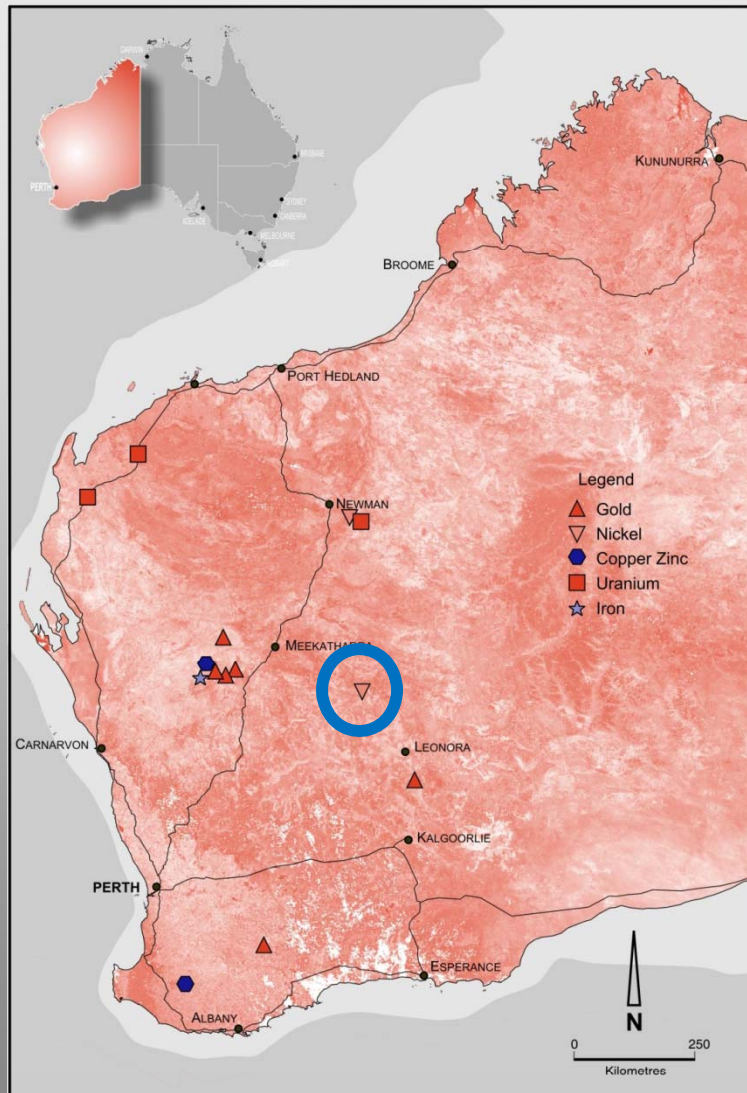

- Recent - Ground investigation of uranium anomalies. Results awaited
- Native Title negotiations for access to prospective eastern anomalies

# Yillaree Nickel Project

JV Breakaway Resources Ltd

(Breakaway 81.27%)

- Hampton free carried for next \$500,000 of expenditure
- Within ultramafic corridor hosting major deposits of Mt Keith, Cosmos and Leinster
- 2007 activities – 94 RAB, 26 Aircore holes for 4510 metres
- 2008 – 61 RAB holes for 2500 metres to test magnetic targets

# 2008 – The Future

HAMPTON HILL  
MINING

## **Weld Range Direct Shipping Ore Project**

- Drilling of untested lenses
- Midwest plan to complete prefeasibility study by October 2008

## **Apollo Hill Gold Project**

- Drill testing of regional targets

## **Wheatley Base Metal Project**

- Drill testing of regional EM targets

## **Weebacarry Gold Project**

- Drill testing of targets generated by review of exploration data

## **Leinster Nickel Project**

- 2,500 metres of RAB drilling over magnetic targets
